

TURN KEY SOLUTIONS AND PRICES

ALL REQUIRED RAILS, CLAMPS, AC & DC ISOLATORS ARE SUPPLIED

GRID-TIE 3KW

\$6,995 inc GST

- 3kW Growatt Grid-Tied Inverter
- 8 x 400W Bluesun Monocrystalline PV Panel
- 10 Year Warranty on Inverter and Installation
- 20 Year Warranty on Solar Panels

GRID-TIE 5KW

\$10,995 inc GST

- 5 kW Griotie Inverter
- 12 x 400w mono Panels
- 10 Year Warrenty on Inverter and Instal
- 20 Year Warrenty on Panel Output

HYBRID 5KW

\$19,995 inc GST

- 5 kW Deye Hybrid Inverter
- 12 x 400w Panel
- 10 Year Install Guarantee
- 20 Year Warrenty on Panel Output
- 10 kWh lithium Battery

HYBRID 8KW

\$28,995 inc GST

- 8 kW Deye Inverter
- 20 x 400W Panel
- 10 Year Install Guarantee
- 20 Year Warrenty on Panel Output
- 20 kWh lithium Battery

Black Box SOLAR

ON-GRID AND HYBRID ENERGY SOLUTIONS

Solar Array Output Comparison

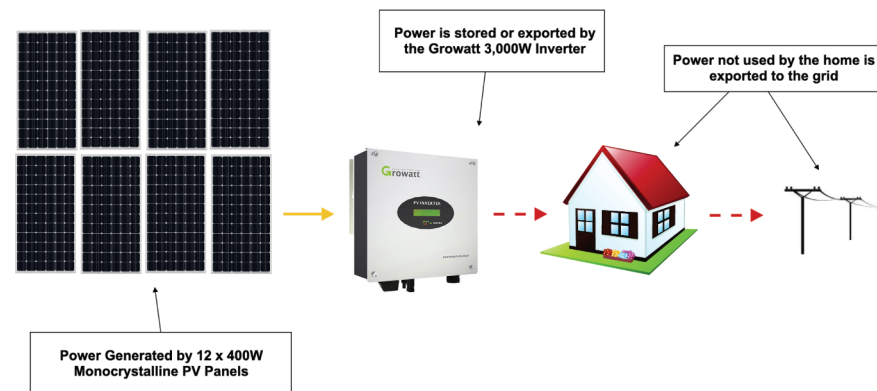

HYBRID SOLAR ENERGY SOLUTION

The Black Box Solar Grid-Tied range are for power consumers that use the bulk of their power during the day. They don't have a large power usage in the evening or are on a tight budget and are looking to get an immediate return on investment and lower entry cost.

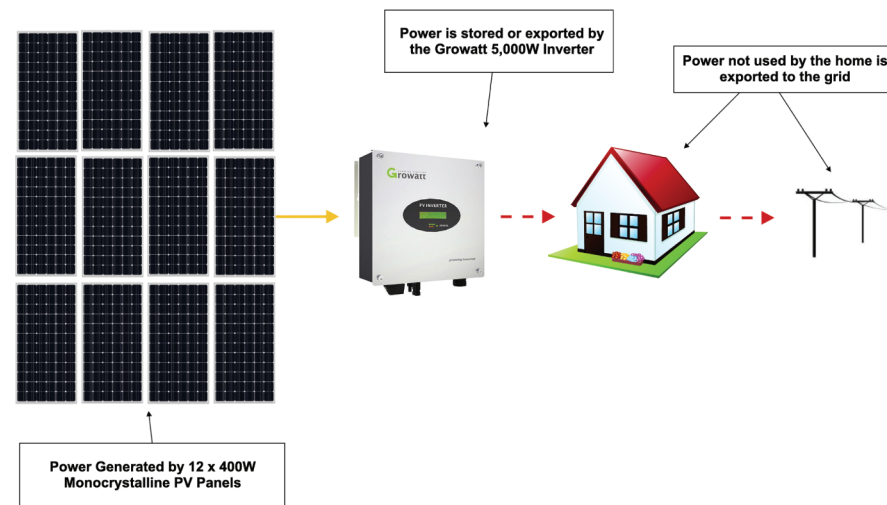

3 KW GND-TIED SOLUTION

Our 3kW Grid-Tie Solution has 8 panels of our massive 400 watt panels and produces over 2 megawatts per year. It is well suited for day power users or seniors with a power bill averaging \$200 per month.

5 KW GRID-TIED SOLUTION

Our 5kW Grid-Tie Solar solution has 12 of our massive 400 watt panels and produces over 4 megawatts per year. It is well suited for small families and power users with an average bill of \$300 per month.

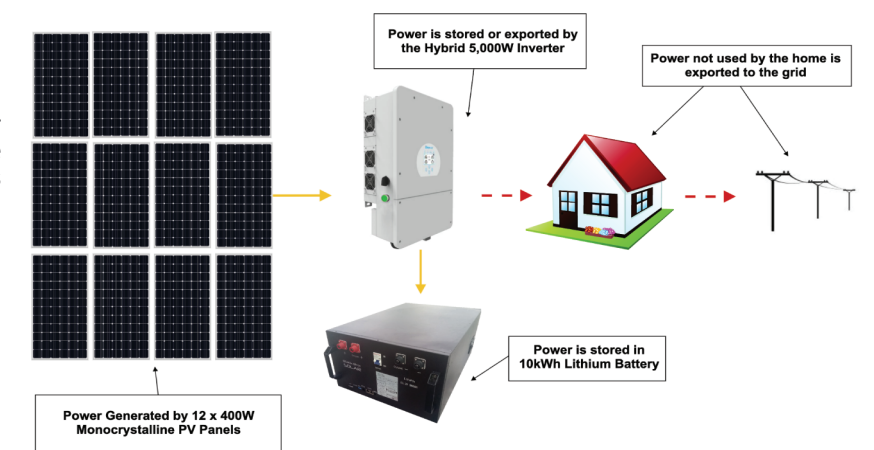

HYBRID SOLAR ENERGY SOLUTIONS

With a busy family of business, you often have 24 hour power consumption requirements. Our hybrid range are paired with our Lithium battery range to provide a power energy storage and production solution. This means in the evening you have the energy required to power your home without drawing more energy from the public grid. The systems can be expanded to suit complete community projects down to individual homes.

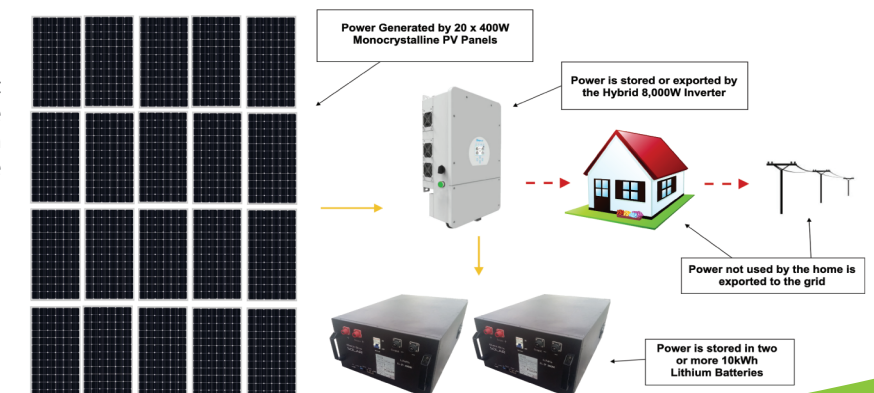

5KW HYBRID SOLUTION

Our 5kW Hybrid solution is state of the art. It features our latest lithium batteries to provide power through the evening and during the day when the power production is hampered by clouds or rain. Systems can be expanded with further batteries or panels.

8KW HYBRID SOLUTION

Our 8kW Hybrid solution is our crown jewel in the range. It can be paralleled with other units to produce higher single phase or three phase options. Including our latest lithium batteries to provide power storage this fully expandable platform is the set to serve you for many years to come.
