

Parking Sensors

Make parking a breeze by adding parking sensors to your car.

We offer a range of different options, our preferred option is flush mount OEM style but have a solution for all vehicles

Our two most popular options are the standard "mount from the outside" type and the flush OEM style sensors, both can be colour coded.

From £190

Heated seats

Give yourself the luxury of heated seats.

We take your ordinary seats and convert them to heated.

From the outside they will look completely standard, we install heating elements to the base and back between the seat cover and foam, with the addition of a conveniently placed switch with the option of High heat, low heat or off.

Suitable for both leather and fabric seats.

£350 for a pair of front seats

Trackers

Are you worried about your vehicle being stolen? An insurance approved tracker greatly improves the chance of getting it back. Tracking via an App or web browser. From as little as £399 inc the first year subscription then £100 thereafter.

Autowatch Ghost II

The Autowatch Ghost II helps protect your car against keyless entry theft. Even if a thief has your keys or is using a relay device to program a new key your car will not start unless your unique code has been entered using a combination of buttons on your dash or steering wheel. From £449
