

Design specs

I am creating a new brand of superfoods mixes in and I am looking for a designer to create the design for the box and the sachet.

I have for 4 products on the roadmap, but I need the design just for the first one:

- For skin nails and hair benefits: **Collagen** + CoQ10 and Vitamin C powders (eg: Blueberries, Camu Camu, Acai)
- For energy and immune system (eg: **mushrooms** powder)
- **Green** Mix (eg: Spirulina + Wheatgrass + Chlorella)
- **Proteine** mix (eg: hemp + rice powders)

I will use Kraft paper for both box and sachet so I am able to print **max 2 colors** on them (black and another color distinctive for each specific powder mix).

I need the design just for the first one with **collagen**, because all the products will have the same format. I will just change the name, ingredients and the color
