

# "Water Floaties in Pool" Tour Towel

- Towel is to have a two-toned pattern as a backdrop - just like the example to the left.
- Essentially, Looking for the concept to the left to be applied in a layout like the donut towel in the bottom left of this page (re: spacing).
- Water dinghies are to replace the donuts. Palm tree leaves along the edges.
- Backside:
  - "That one's wet.." in cursive font, angled, centered horizontally and vertically. Use the lighter of the two blues from the front of the towel.
  - logo in bottom right corner.
