

# CycloMop

**Worlds First Premium and Commercial Grade Dual Action Spin Mop Now with trolley base.**

**Heavy duty superfast wet/dry, hygienic floor cleaning system ever!**

## THE ORIGINAL SPIN MOP

The CycloMop is a revolutionary spin floor mop that can rotate 360 degrees for quick and easy hard floor cleaning. This can be easily operated by foot pedal action or by hand press motion handle to assist with the rinsing and through cleaning with its super absorbent microfibre heads.

## EFFICIENT AND HYGENIC WRINGING

This mop bucket comes equipped with a fast-spinning hand and foot-powered stainless brushed steel wringer. Just insert the mop in the wringer, step on the peddle or push down handle action and let it spin to remove dirt and get any moisture.

## ULTRA ABSORBENT MICROFIBER HEAD

The microfibre head of this smart spin mop is super absorbent so that it will soak up all spills & dirt, quickly, aggressively and easily. The spin mop and bucket set are efficient and completely machine washable.

## COMPLETE MOP AND BUCKET SYSTEM

Each purchase of our CycloMop spin mop and bucket comes with two microfibre cleaning heads, a scrubbing head attachment for removing tough dirt and grime, a telescopic handle and mop head attachment. Supplied with mobile dolly for easy portability and movability. The complete mopping packages!

## SUITABLE FOR ANY HARD SURFACE

With a super soft microfibre head and drip free wringer our floor mop works on any hardwood surface. Whether on tiles, marble, vinyl or wood, our floor cleaner mop will leave any surface squeaky clean.

## Description

CycloMop portable Microfiber Spin Mop & Bucket Set Features 360 Degree Dual Rotating Wringer that's hand or foot operated. Set includes two mop heads, Nylon Scrubber Brush, microfibre hand dust mitt & a heavy duty mobile trolley for ease for movability. Ideal for commercial businesses, Home office, Kitchen & Bathrooms.

### The CycloMop spinning mop and bucket set makes mopping easy and enjoyable.

The CycloMop spin mop and bucket set is a revolutionary floor cleaner that takes the difficulty and effort out of mopping up floors. Once you attach the mop heads and run them through the wringer you will see how easy it is to use. The CycloMop bucket is divided into two sections:

One for wetting the mop, the other for wringing out any moisture. Both parts are operated via a foot peddle or push motion of the handle. All wetting, and wringing is designed to be as effortless as possible without the need for bending down.

Most spin mops come with spinning action in their wringing area. With our CycloMop mop and bucket sets we have included the spinning action in the water bucket as well to effectively remove any dirt and grime, leaving your mop head clean and fresh.

### The most efficient microfibre and scrub heads around

The heads of the CycloMop microfibre mop easily absorb liquid and other messes. Other mops just push the liquid around, but the CycloMop heads are super absorbent and will trap any liquid inside without leaving any messes or drips. In addition, your mop comes with a nylon scrub head that can be used to scrape away any tough dirt and stains from high traffic areas like patios and passageways.

### A host of unique cleaning features

With the CycloMop's pivoting flat heads you can easily get into and clean every corner and hard to reach area such as under furniture. The spin mop bucket design ensures that it is deep enough to prevent any overflowing or spillages, even when moved around. Emptying the bucket is hassle-free, with a convenient handle for lifting and a drainage plug for disposal. The efficient 360-degree spinning system removes all moisture ensuring a drier and streak-free surface. Finally, the dual spin mop and bucket combo is tough and durable and can be used anywhere. This spin floor mop is so versatile you can even use it on windows and walls.

# PRODUCT SPECIFICATIONS
