

WARNING:
HAZARD STATEMENTS:
CAN CAUSE SERIOUS EYE
IRRITATION
CAN CAUSE SKIN IRRITATION

****EYE AND SKIN PROTECTION REQUIRED****

- For use as an everyday / light maintenance cleaner, product can be diluted up to 12 parts water to 1 part cleaner.
- **Always test an inconspicuous area first for proper dilution and dwell time especially on soft metal surfaces and concrete.**
- If ImpervaClean contacts skin, simply flush with water. IF IN EYES: Rinse continuously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical attention.
- Average dwell time is between 1-10 minutes. Always test first to ensure proper dwell time. For tough built up staining, repeat short rounds of applying product on surface for short dwell times under 5 minutes, then simply rinse. Repeat for as many rounds until surface is clean. **Note: Process may need to be repeated in certain situations.**
- **Note: brush is not always needed . Please always test first to see if you need.**
- **Do NOT let product dry on soft metal or concrete surfaces.**

Instruction Guidelines:

General Equipment Needed:

- Personal protective gear: gloves, safety goggles, long sleeve clothing
- Soft bristle brush if needed
- Pump Up Sprayer or Spray bottles
- Pressure Washer (recommended 2500-4500psi) or hose
- Rotary Turbo Nozzle

Instructions:

1. IMPORTANT! Please review product data sheet for full instructions and dilution recommendations
2. Always test inconspicuous area first for proper dilution ratio, dwell time, and to see if a scrubbing brush is needed.
3. Apply product onto surface. Let it dwell between 1-5 minutes. Do not let it dry on surface. Only scrub with a brush if needed.
5. Rinse with hot or cold water.
6. Repeat process if necessary

imperva
clean

Bio-degradable, Solvent-free, All-purpose Cleaner & Degreaser

*** Non-Toxic - No DOT Hazard Class - Non-Flammable - No Smell - No VOCs - Non Caustic
Solution* Does not harm plants***

- Generally requires user to let product dwell on the surface between 1-5 minutes **instead** of extensively scrubbing product into surface to remove stains
- Cleans general staining, carbon, atmospheric staining, tannins, blue-green algae, mold & mildew formations, grime, dirty films, efflorescence, magnesium chloride, and both old or new stains.
- Removes oil-based stains such as motor oil, automotive fluids, anti-freeze, hydraulic fluids, food grease, etc.
- Removes tough sticky substances from surfaces.
- Removes build up on asphalt/tar surfaces by lifting off dirty films & residues and suspending them for easy rinse.
- Excellent cleaning pre-treatment prior to new coating, paint, or sealer applications.
- Will not discolor original surface or damage/etch glass.
- USDA Approved for use in food service plants.
- Can be used in hot or cold climates or with hot or cold water to rinse.

**For use on below substrate
surfaces including bare, painted,
finished, polished, substrates:**

*(*at recommended dilutions for specific job
types please review instruction manual prior
to application*):*

Concrete - Masonry - Brick - Stucco -
Stone - Cinderblock - Terra Cotta
Barrel Tiles - Warehouse Flooring -
Equipment - Metal - Wood - Marble -
Travertine - Asphalt - Glass
-Vinyl
