NEX® MODIFIED ASPHALT TECHNOLOGY

RidgeFlex™ is an algae-resistant hip and ridge shingle line engineered with industry-leading, sustainable NEX® Polymer Modified Asphalt Technology [PMA], which combines high-grade asphalt [weathering] with advanced polymers [strength, flexibility] and upcycled materials [durability, sustainability] to **rubberize the shingle for exceptional all-weather performance, superior granule embedment, and longer product life.**

Malarkey hip and ridge shingles [10", 12" RidgeFlex™ or 8", 10" EZ-Ridge™ with Scotchgard™ Protector from 3M] are recommended for all Malarkey field shingles but required with shingles having Scotchgard™ Protector to receive Malarkey's Limited Lifetime Scotchgard™ Protector Warranty. RidgeFlex™ shingles are designed to highlight certain hues in Malarkey shingles and may not always appear to be an exact match to the entire blend of the roof.
