

Scarlet Electrolysis.com
Permanent Hair Removal
For Any Skin Type

FOLLOWING YOUR ELECTROLYSIS TREATMENT

AFTERCARE INSTRUCTIONS:

- ❗ Avoid unnecessarily touching or scratching the area.
- ❗ Avoid soap and make-up over the treated area for 24 hours as they could cause irritation.
- ❗ Avoid excessive sweating if having work done below the neck.
- ❗ Avoid friction on the area (tight clothes).
- ❗ Avoid exposing the treated area to U.V. rays at least 24 hours before treatment and 48 hours after treatment.
- ❗ Avoid perfume or alcohol-based products.
- ❗ Avoid excessively hot baths.
- ❗ Avoid rich, greasy lotions or creams.
- ❗ Avoid using deodorant for the first 48 hours.
- ❗ Apply a soothing lotion and moisturize the area well (HydraPlus, or Yi-zhi-baume or AloeVive)
- ❗ Apply a cold water compress, if necessary.
- ❗ Apply sunscreen, if necessary.

PLEASE REMEMBER:

- ❗ Some re-growth is to be expected after your first treatment.
- ❗ Be sure to book another appointment when the first re-growth occurs, the roots are shorter and weaker and therefore can be treated more effectively.

WHAT IS NORMAL AFTER A GOOD TREATMENT?

- ❗ Redness on the treated area.
- ❗ Slight swelling of tissue.
- ❗ Warm sensation and/or prickly feeling depending on the treated area.

These are temporary reactions. They should disappear in the hours following treatment.

100% SATISFACTION GUARANTEE

Delete these women.

Replace with these women.
There is a silver swish looking background behind the women too...can you add that as well?

Can you use this Font in BOLD for the wording:

Aftercare Instructions

Aftercare Instructions

I love how you used the X's and check marks to show the differences in this section. I do have an updated list for this section, please see the attached document for the updated list for this section

I have updated the list for this section, please see the attached document for the updated list for this section.

I have updated the list for this section, please see the attached document for the updated list for this section.

I want the wording... "Book an appointment Today and the phone number here to be bigger."

Remove this mountain looking background and add a watermarked copy of my logo starting under the words "Aftercare Instructions" down to just above the burgundy swirl. The logo can fall off the page a bit as well so the point of the hair the woman is holding can seem as if it is pointing to the words "Aftercare Instructions".

Following Your Electrolysis Treatment:

Scarlet Electrolysis.com
850 E. Higgins Rd., Suite 123K
Schaumburg, IL 60173-4788

Delete this picture.

- Add the pink color I have on my 3rd page instructions to the background of this section.
- Move the wording only from this second section to the top section and make it BIGGER like it is in the sample below.
- Make the words, "Introducing Scarlet Electrolysis.com bigger and put it on its on line. Also, can you put..." where removing your unwanted hair is our passion." on the line beneath our name.

Move the verbiage from the third section to the second section and make the wording slightly bigger.

I want a new section created here with the picture I have included and the following verbiage added:

Come and meet Sangita!

Schaumburg's #1 licensed and certified Electrologist. Over 15 years experience of specializing in precise and accurate injections to each hair follicle to provide you with the permanent hair removal you desire.

I want the wording... "Book an appointment Today and the phone number" along with the website verbiage to be slightly bigger.
