ALUMINIUM INNOVATION

FEATURES & BENEFITS

- 100% Non-Combustible (tested to AS1530.1 and AS1530.3)
- 100% Recyclable
- High quality 5052 marine grade aluminium
- Favourable weight and price comparison with ACP panels, while being
- High in strength
- Suitable for a wide range of internal and external applications.
- Easy to transport and install.
- Can be easily processed to meet specific requirements without losing performance.
- Highly durable and highly resistant to corrosion
- Exceptionally long service life
- 1.6mm thickness with FEVE Gloss finish
- 2mm thickness with PVDF Matte finish
- 10-year colour warranty on FEVE Gloss
- 20-year colour warranty on PVDF Matte
- Suitable for fabrication with no cracking or crazing
