

# Sani-Gear

Eliminating Odors From Athletic Equipment

# My Story

My sons have played hockey for over 10 year. I wish I could only change one thing. The smell from their equipment. Anyone who is a athlete or knows an athlete understands what I mean. The odor from the equipment is everywhere. And never seems to fully go away. We've tried every spray, deodorizer, airing it out, you name it, Nothing worked.

## Nothing Worked ...Until This

After years of struggling through the stench, I discovered a solution that worked and started a business to help out others just like me. **Sani- Gear** is a mobile service that removes the harmful odor-causing bacteria from athletic gear. We don't use dangerous chemicals, ineffective sprays, water or harsh detergents.

Sani- Gear uses patented ozone patented technology, eliminating 10+ harmful bacteria in 12 ½ minutes. Imagine fresh smelling gear !

# Convenient & Mobile ...We Travel To You !

Contact us to schedule a sanitization.

## Convenient Ways To Sanitize ....

1) Have a **dedicated locker room**? We roll the Sani- Gear system into your locker room, sanitize the equipment and your ready to go before your next practice or game.

2) **On site service.** We bring the Sani Gear System to your business, home or rink to sanitize gear on location.

3) **Pick up/ return service.** Sani-Gear will pick up at one location of your choosing, sanitize the gear and drop off gear at same location.

# It's What The Pro's Use

In addition to Military, Law Enforcement and First Responders.

# Testimonials From The Pro's

*"I liked the machine so much I purchased two myself. When we run the team's equipment through it, they just love it and continually ask for it to be done again and again."*

*- Bert Godin - Head Equipment Manager, St-Louis Blues™/®*

*"The machine has been extremely helpful in terms of protecting our players' equipment. We also find that the equipment itself lasts longer and is in better condition because of the Sani Sport Treatment."*

*- Rip Simonick - Head Equipment Manager, Buffalo Sabres™/®*

*"The Sani Sport has been great for our players. We evaluated all the machines and technologies and by far is the one that's best for our equipment and our players. "*

*- Pierre Gervais - Head Equipment Manager, Montreal Canadiens™/®*

*"I have found the sanitizing machine to be the most effective way to treat our equipment. Our players are very appreciative of this technology, as it helps keep them on the field."*

*- Red Batty - Head Equipment Manager, Green Bay Packers™/®*
