

All Lessons Page

Must have:

- Search box
- List of clickable categories (beginner, intermediate, advanced, etc.)
- Page of lessons
 - Each lesson has a thumbnail and tag
- Page numbers, which allow the ability to scroll between pages of lessons
 - Ex: On the current site, there are 112 beginner lessons. This is organized into four pages of 24 lessons and one page of 16

Nice to have:

- Feel free to organize the page differently from how its organized now
 - There don't need to be pages of 16 lessons, you can find an alternative organization system
- There is a lot of white space not used on this page. The more organized, the better. :)
