

Core Competencies

Innovation Solutions for In-Room Guest Services for the Accommodation, Mining and Healthcare markets.

LSP is a non-listed public company that provides technical services, entertainment and communication to hotels, resorts, mining camps and healthcare facilities.

At LSP, our goal is to provide your patients with an easy to use system that will make their stay in hospital as enjoyable as possible, whilst benefiting the hospital and its staff in the provision of these services.

Our Vision

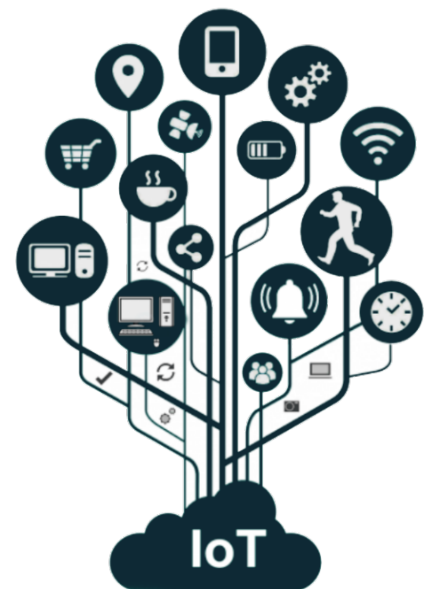

To be the first-choice solution provider for accommodation guest/patient services, through dynamic and flexible integration platforms, extending to hospitals, aged care facilities, student, accommodation, and mining camps.

- Unique technology: LSP has developed a unique technology that delivers superior user entertainment services and Public Wi-Fi.
- Cost and revenue benefits: LSPcare is designed to improve the patient's experience, whilst promoting significant cost savings coupled with additional revenue streams for the Hospital.
- Customers: Current customers include hotels, hospitals, aged care facilities and remote accommodation facilities such as mining camps.
- Key geographic markets: Asia Pacific, North America.

LSPcare patient engagement solutions (PES) are a caring and consultative, long-term hospital partner. Our solutions are empowering to healthcare workers, patients, their families, and caregivers helping them meet their day-to-day challenges and improve their overall quality of life.

LSP takes its reputation in the market very seriously and takes every care possible to work with the facilities to enhance that reputation within the Hospital community.

With extensive industry experience, LSP is able to build the best outcomes together for this offering. LSPcare is a new generation software and hardware designed to meet the objectives of the Healthcare markets.
