**Mobile Hydraulic Repair Info Section:**

**Mobile Hose Repair Service, 24/7, 365 Days**, specializing in reducing customer's equipment downtime and operating cost, by coming to you with a fully stocked truck and a mobile workshop.

Equipped Mobile Hydraulic Repair provides the fastest hydraulic hose replacement and industrial hose repair service in the area. Our on site hydraulic repair is available 24/7, and is a simple solution that minimizes equipment downtime and eliminates the need for our customers to leave their job site or facility to locate a new hose. Our trucks are fully loaded with fittings and hoses to fix and make new hoses on demand exactly as the customer needs. We do it all on site and save you time from running around looking for a replacement hose.

The service technician will:

1. Quickly assess the situation and failure.
2. We will remove the failed hose to use it as a template to make a new one
3. The Truck is fully equipped to be able to custom fabricate a replacement hose to match exactly what you need.
4. We will then install the custom made hydraulic hose assembly on site without you ever having to move or transport the machine.
5. We will then work with the customer to ensure the equipment is up and running before leaving the jobsite.

Our hydraulic hose repair service trucks are available day and night to fulfill your needs. To minimize your equipment downtime and operating costs, Equipped Fleet Service strives to be your go to call for on-location hydraulic hose replacement.

**Emergency roadside assistance:**

Between our different locations we have several fully equipped & stocked service trucks to meet your needs on the road. We offer onsite roadside repair & diagnostics. Whether it's during regular operating hours, after hours, weekends, or Holidays.

We understand that your business depends on your truck being on the road and meeting your promised delivery schedule. Whether it's at your shop, jobsite, or on the road, we are there to serve. We carry many of the common parts and items needed on the roadside.
