

Getting the Most Out of Your bundt·ish

Care, Storage, and Enjoyment

1. Prepare to rekindle your love for pound cake again for the first time, or simply prepare for a love-at-first-bite pound cake experience with your bundt·ish.
2. Remember, in order to maintain the quality and freshness of your bundt·ish, please store it in an airtight container and keep it in a cool, dry place for up to five days.
3. You can also save your bundt·ish for later enjoyment after 5 days. To begin with, wrap in food-grade plastic wrap. Next, cover with aluminum foil. Then freeze for up to four months. However, if you prefer, you can pre-slice before wrapping and freezing and then store the slices in a freezer storage bag for later slice-by-slice enjoyment.
4. When ready for another moment of enjoyment, remove your bundt·ish from the freezer, let it thaw at room temperature, then unwrap and serve.

Enjoy your moments by the pound!
