# Farm Map Naudesia 13/90

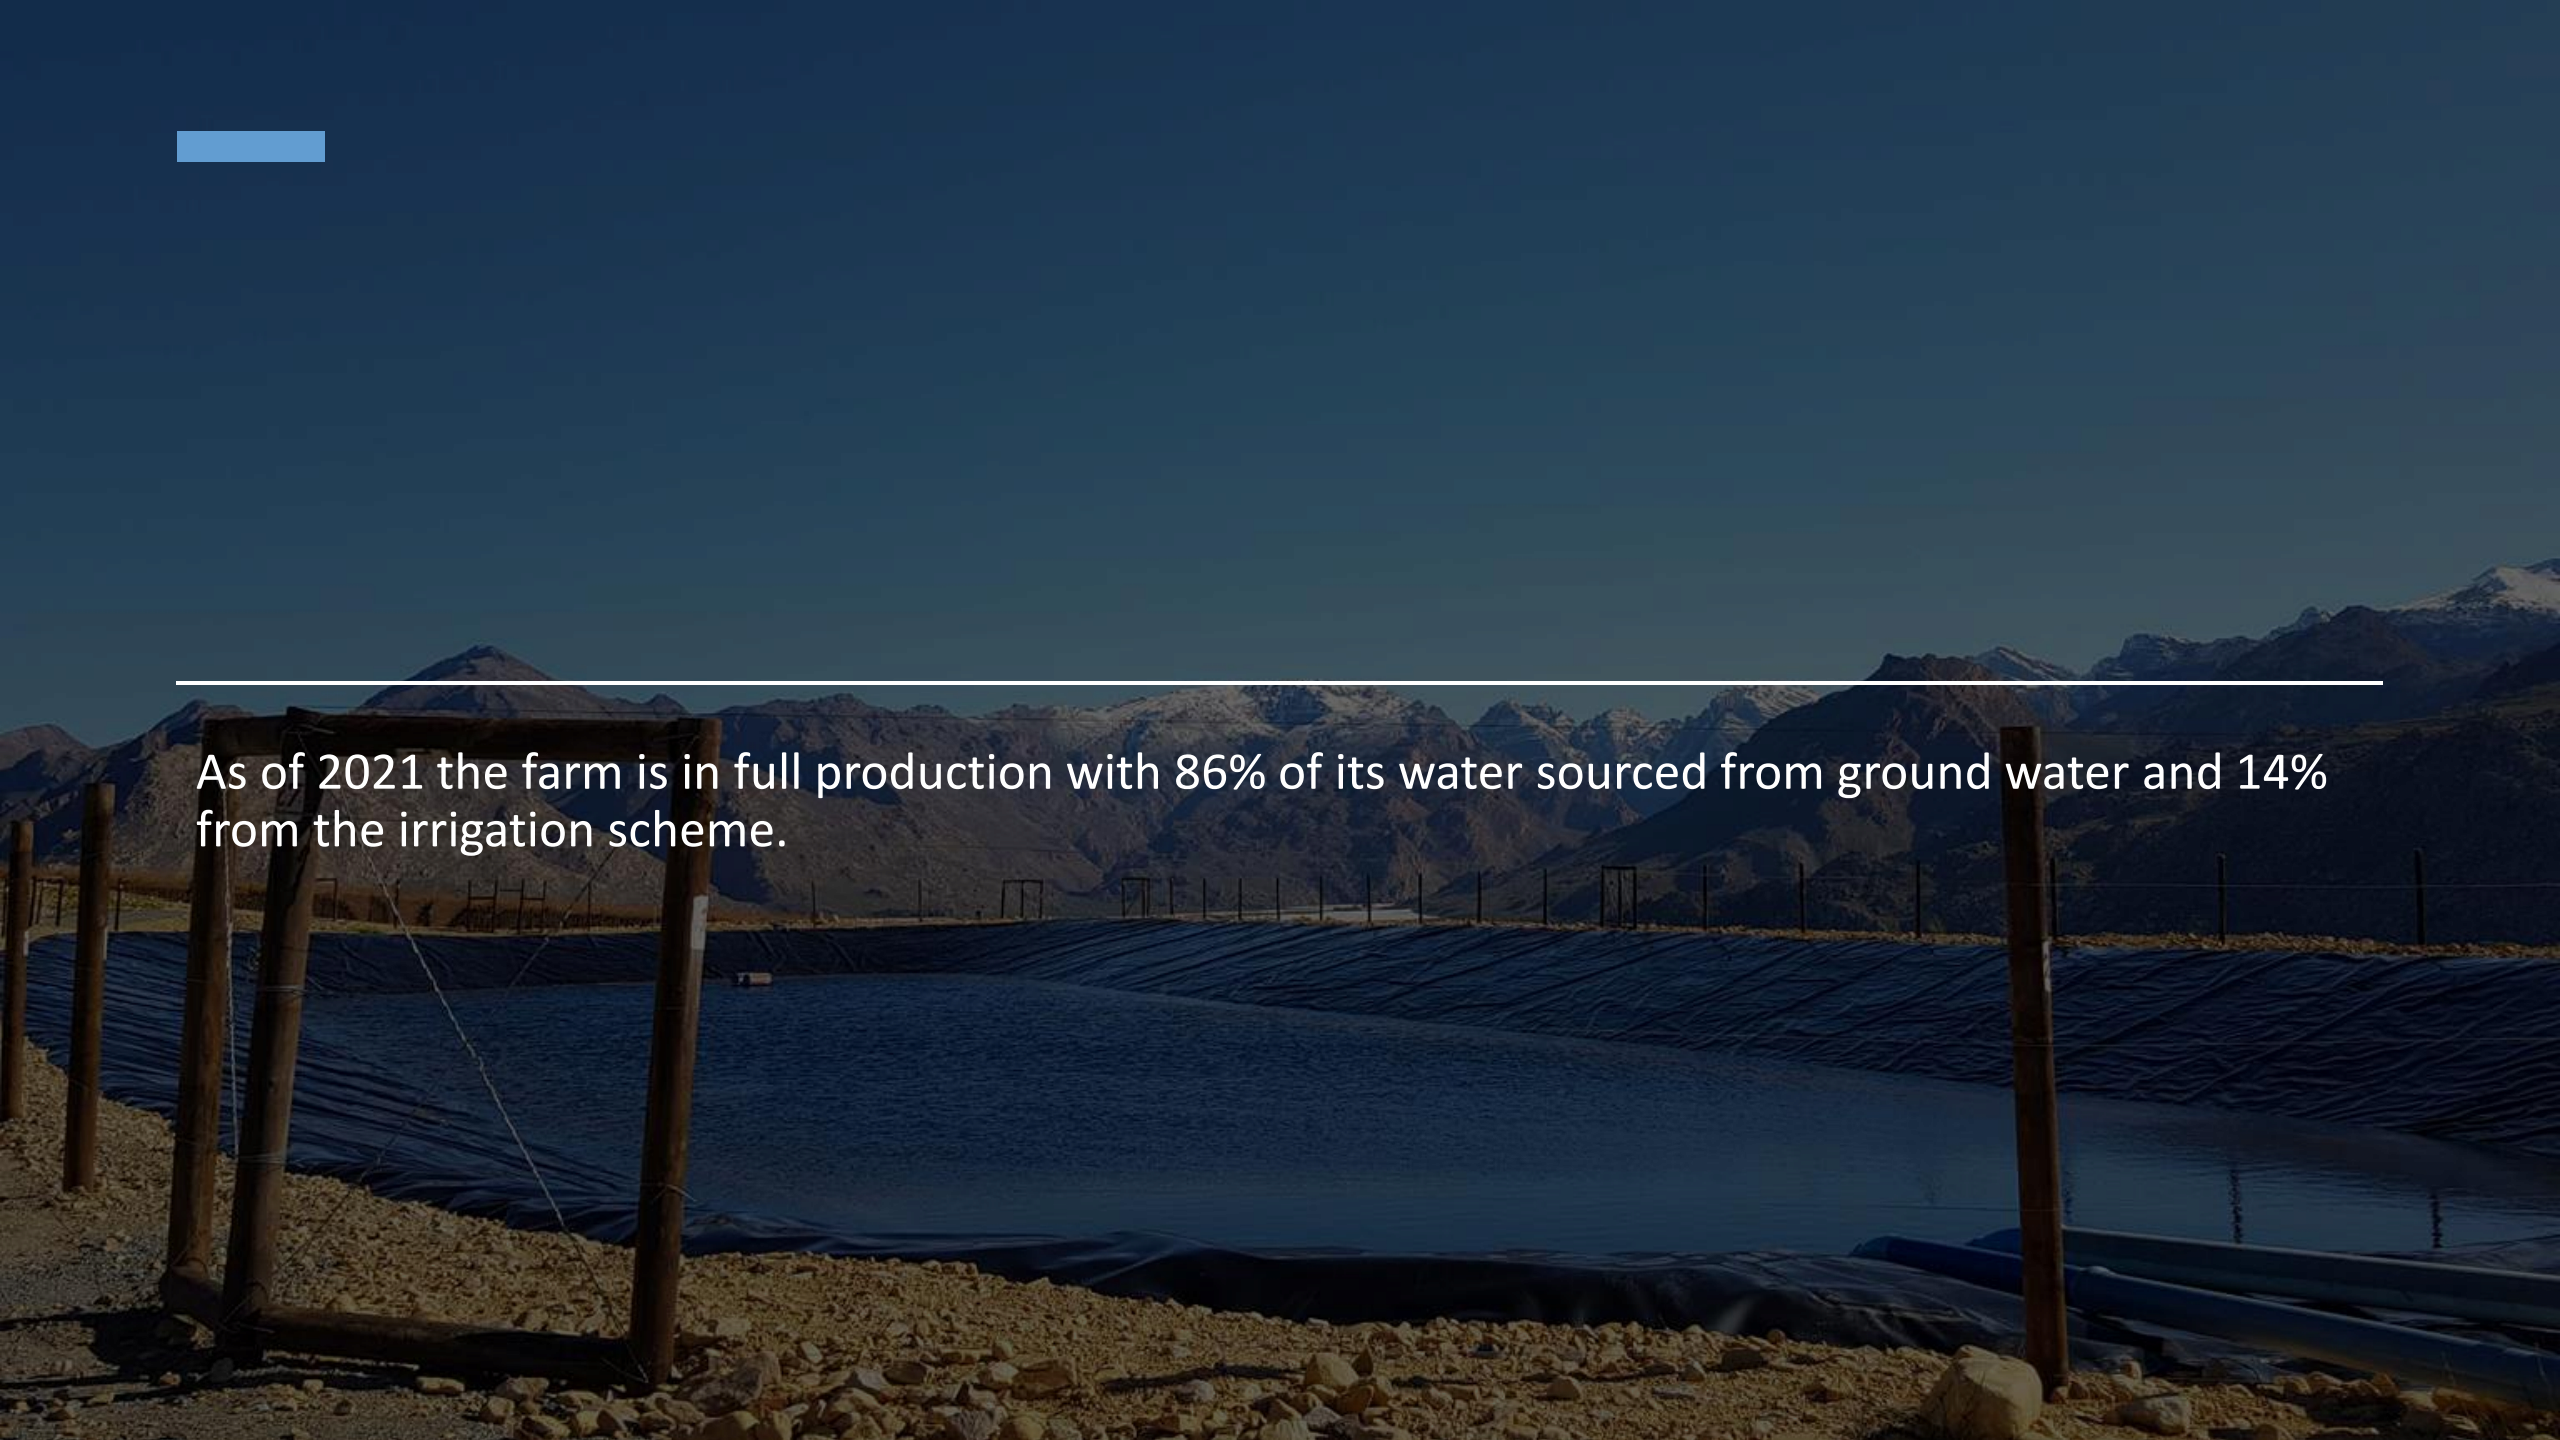

A silver pickup truck is parked in the middle ground of a vast, arid landscape. The foreground is filled with a dense field of light-colored, rounded rocks. The ground beyond the rocks is dry and brown. In the background, a range of mountains is visible under a clear, pale sky. A single, dark green tree stands on the right side of the horizon. The overall scene conveys a sense of isolation and dryness.

The farm was developed from virgin land between 2014 and 2018 with limited ground water and zero water granted by the irrigation scheme.

As of 2021 the farm is in full production with 86% of its water sourced from ground water and 14% from the irrigation scheme.

We employ on average 80 staff annually which we hope to increase to a 185 staff over the next 4 years as we expand the farming operations.

We have been outsourcing the packing of our grapes since 2018 as the farm does not have its own packhouse.

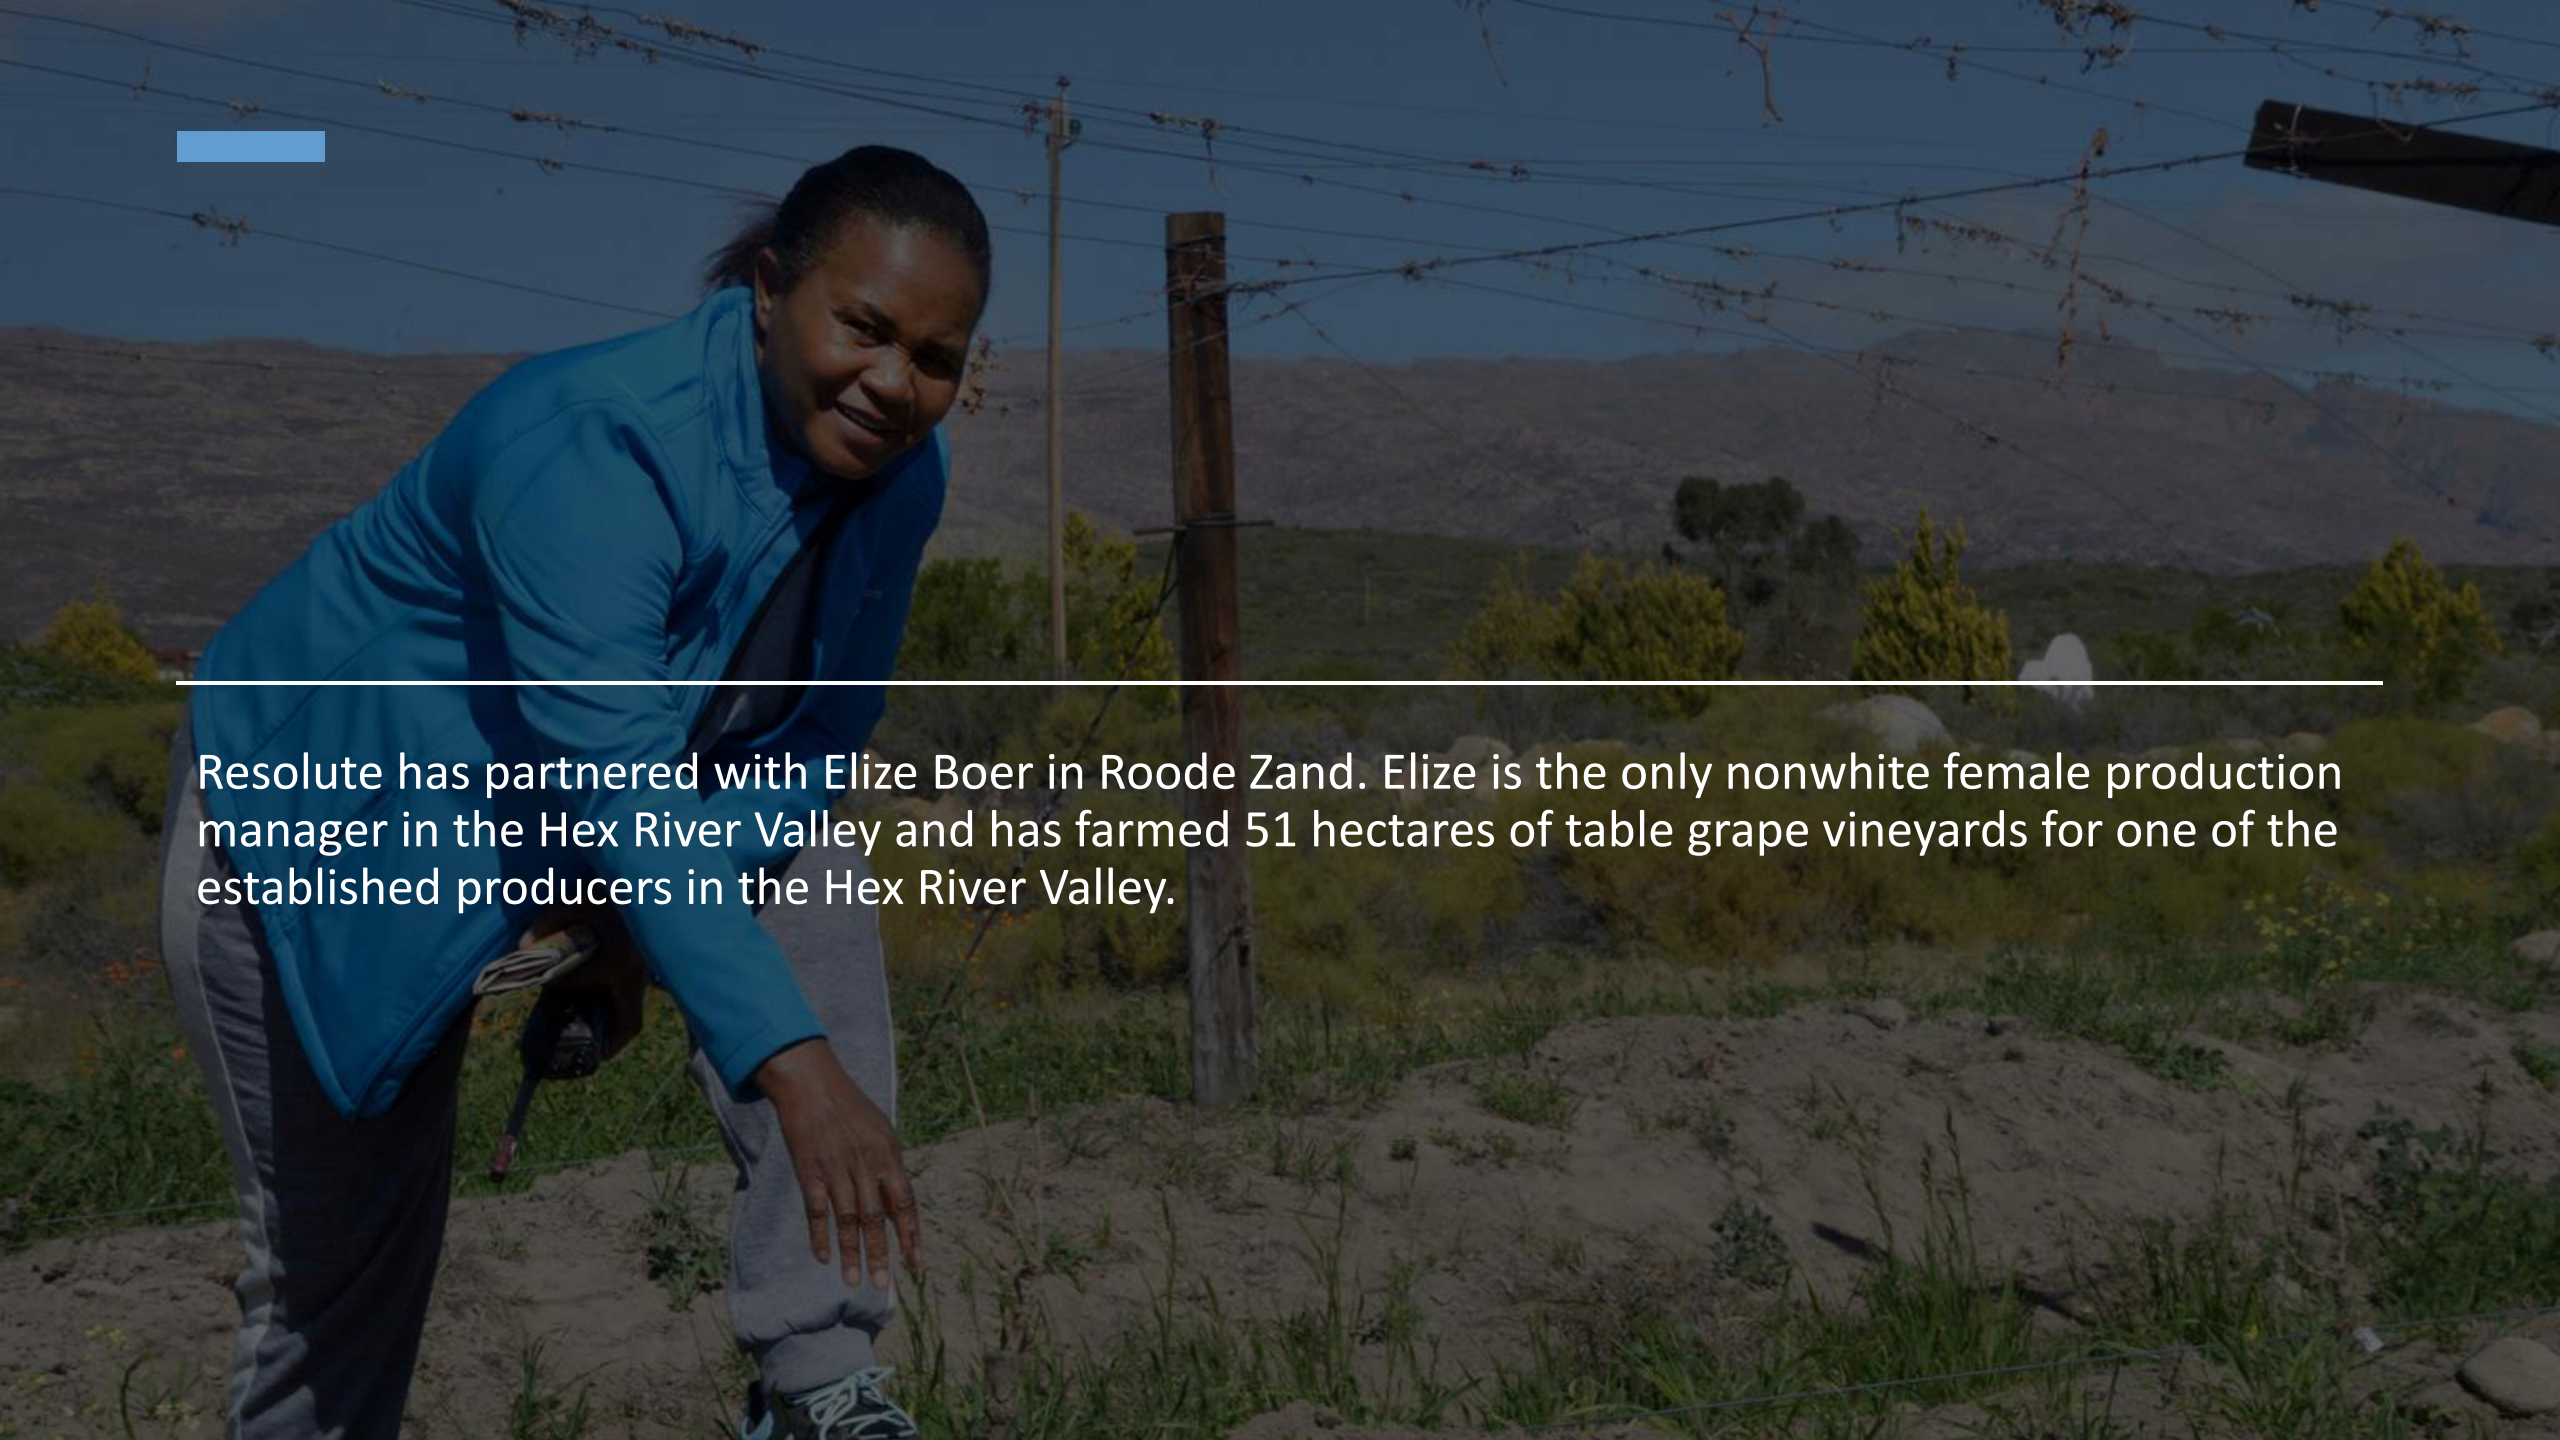

In 2021 we purchased the farm Roode Zand located in the Hex River Valley from an insolvent estate in order to refurbish its packhouse to pack Resolutes crop.

Resolute has partnered with Elize Boer in Roode Zand. Elize is the only nonwhite female production manager in the Hex River Valley and has farmed 51 hectares of table grape vineyards for one of the established producers in the Hex River Valley.

Elize has been looking for an opportunity to own a farm for the past 20 years. She brings her 30 years experience in farming table grapes to the partnership.
