

Unseen Hero Shirt Design

This is a project for the unseen heroes that answer the phone 24 hours a day, 7 days a week, 365 days a year. They take 911 calls in a calm and professional manner. When you are in the need of police, fire department, or ambulance, they will be there to guide you through your emergency. They take pride in the work they do. They often go unrecognized when a life is saved in the midst of the emergency. This project is for all of the 911 dispatchers.

This will be a two piece artwork for a left chest and back of shirt design. Looking for professional, not cartoony. Colors should be rich and bold. Garment colors will range from a heather grey to black. The back design should include the EMS Star of Life, Maltese cross, police badge and the distressed American Flag. All of that needs to be inside the outline of Bureau County, IL border; see artwork attached. The left chest needs a headset and 911 dispatcher; see the attached picture.

Happy designing and thank you!
