

must haves:

highland cow - the shaggier, the better / coat of arms look / crown / thistles / the name 'Shoogly Coo'

1. interesting font needed - don't really like all capitals
 2. should the banner (and text) be larger or would it hide too much of the design?
 3. better defined curling leaves
 4. more thistles
 5. a thought ... could the leaves be replaced with twisting thistles or would this look 'too much'?
- I need a black version (vector?) with transparent background to use digitally & on paper
 - I need a white version (vector?) with transparent background to use digitally & on paper
 - I need a metallic gold version (vector?) with transparent background to use digitally & on paper

'shoogly coo' is Scottish and translates to 'wobbly cow' or 'unsteady cow'

I have not purchased the image of the cow used above but can do if necessary
