

Stay Ahead of Disruption

Outpace the Competition

Lead Future Growth

Technology Shouldn't Be Overwhelming

Many business leaders struggle to keep pace with rapidly changing technology.

Thousands of tech companies offer innovative solutions. But finding the RIGHT provider is *overwhelming* when you aren't certain you will:

Receive the best price and value

Successfully integrate the new solution

Receive expert ongoing support

Invest in a solution that remains relevant

Streamline Your Business With

Expert-Vetted Tech Solutions

At TruCloud, we understand how frustrating working with technology providers can be.

Not only do you face time-consuming meetings and demos...

You also risk investing in a solution that won't deliver as promised.

Our process takes the headache out of sourcing the RIGHT tech solutions for your business.

You get a custom plan to implement at every stage, so you can:

Protect against security threats

Stay ahead of your competition

Confidently scale your business

Take Back Your Time

How Will an IT Advisor Help You?

Do you really want to vet and negotiate with each service provider yourself?

A trusted IT advisor reduces the time and energy it takes to source and implement tech solutions.

We'll take the time to know your business and understand your needs.

Then, we'll use our objective, in-depth approach to find the BEST solution for your business, at a great price.

You'll walk away with a custom roadmap to easily implement your new tech solution.

Plus, leverage our expert support at *any time* if you run into snags with your provider.

Elevate Your IT Strategy

Get a Custom Roadmap to Optimize Tech Solutions

Schedule a Call

Keeping Pace with Technology is *Hard*.

And the truth is, inefficient technology not only hinders internal processes...it also puts your business at risk.

We help growing businesses find and implement the best tech solutions to fit their needs and goals in this ever-changing digital landscape.

Leverage Technology To

Accelerate Business Growth

Transform

It's no secret... *every* business encounters challenges in the digital space.

We help you lead a **digital transformation** by pinpointing tech obstacles and crafting a comprehensive roadmap, tailored to fit your goals.

Whether you're looking to upgrade a legacy solution or invest in a new one, you'll walk away with a custom plan to:

Increase bandwidth

Maximize software performance

Cut down cost

Boost productivity

Optimize

Do you have a clear picture of your systems, services, and vendors?

Many businesses don't. And have no idea of the total cost.

We run a full audit to help you **optimize expenses** and identify strategic growth opportunities.

From there, we create and help implement a roadmap designed to:

Ensure the best solutions

Guarantee top value

Streamline billing

Secure

As technology evolves...so does the risk of potential threats.

Using our comprehensive process, we help you safely and securely scale your business online.

You achieve the internal clarity you need to **protect your business** from inevitable risk by:

Assessing *vulnerable* systems, assets and data.

Ensuring systems *identify* threats quickly and easily.

Developing and implementing processes to *take action*

Creating plans to *restore* impaired capabilities due to threats

5 Steps To

Take Control of Your Tech Solutions

Step 1: Analyze

We start by identifying where you stand using your business strategy, success indicators and desired outcomes.

Step 2: Roadmap

Next, we outline your business needs, concerns and goals using capex, productivity, overhead and resources.

Step 3: Vet & Recommend

Using your roadmap, we advise you on solutions and recommendations to fit your desired goals and business needs.

Step 4: Negotiate & Implement

We negotiate pricing and oversee your project to ensure you get the best value from your providers.

Step 5: Ongoing Advisory

After implementation, we'll be with you every step of the way and continue to assess your solution as your business evolves.

XERO KILLS THE DESK PHONE

See how the global enterprise delivers Anywhere Sales & Service with Dialpad

DIALPAD CUSTOMER STORY

Like many fast-growing companies, Xero inherited a morass of PBC phone systems as it expanded internationally.

Each new office signed up with their local vendor. These pre-packaged, on-premise systems didn't communicate with each other...and required constant IT maintenance.

In short, their phone system was a mess and a drag on their company's success.

Xero turned to TruCloud, and...

Our Mission

Transparent Tech Advocacy

Think of us as your trusted partners in the technology business. We want you and your team to succeed! Leveraging our expertise, we help you make informed tech decisions with confidence...so you can grow your business with the RIGHT technology.

Strive for Greatness

Embrace Innovation

Execute with Discipline

Build and Maintain Trust

Cole Dunsmore

Your Trusted Advisor

It's no secret...the right tech solutions will accelerate your business growth.

But most tech teams don't have the resources to vet and negotiate with every service provider.

Using my detailed process, I help you save time and money by providing an objective carrier-agnostic review, based on your unique business needs.

You'll walk away with a clear plan to source and implement the right tech solutions with confidence.

You Deserve

Seamless Technology That *Works*

Forget one-size-fits-all tech solutions.

You need a custom plan that fits *your* unique business needs!

Whether you're starting a specific tech project or just ready to optimize...

We'll help you get clear on your best next steps to **maximize efficiency** and **cut down costs**.

Our detailed approach ensures you source and implement tech solutions that:

☒ Are easy to use

☒ Integrate seamlessly

☒ Align with your business goals

Plus, leverage our expert support *any time* if you run into snags.

PGA

RingCentral Helps PGA Promote the Game of Golf

Over the years, the PGA of America inherited numerous on-prem phone systems.

These separate systems added complexity to the organization's internal processes...along with a constant demand for IT maintenance.

Laurie French, the Director of Technology Operations, reached out to TruCloud to help upgrade and consolidate phone services across the organization.

TruCloud introduced Laurie to RingCentral, and...
