The MediaLight MK2 Series:

Optimal Lighting For Color-Critical Video Viewing Environments

The MediaLight MK2 Series was developed to provide an accurate, Simulated D65 "dim surround" bias light solution for the most demanding home cinema and professional video editing applications.

The MediaLight MK2 Flex combines ultra-high CRI and color temperature accuracy with the convenience and portability of a USB-powered LED bias lighting system. Color-stable dimming and instant warmup ensure that your ambient light is always on target.

MediaLight Features:

- High-accuracy 6500K CCT (Correlated Color Temperature)
- Color Rendering Index (CRI) ≥ 98 Ra
- Color-stable dimming and instant warmup
- USB 3.0 Powered
- Included infrared PWM dimmer and remote control
- Peel and stick authentic 3M mounting adhesive
- 5 Year Limited Warranty
- Recommended for all displays, including High Dynamic Range (HDR)

MediaLight MK2 Flex 6m (19.68 feet)
