

We need a logo for my husband's new garden care business. His name is Gerry and his business is 'Gerry the Grass Guy'. The logo will appear on the side of Gerry's 4x4, his website & mail drops/flyers so needs to be high impact but simple. The main focus of the business is lawn mowing but he will also offer hedging, edging and pressure washing services. Gerry is a loving dad, husband and friend with an Italian heritage and amazing work ethic. In this new business venture, Gerry wants to be known for being local guy who is very reliable with reasonable rates. The logo should be fun and represent Gerry's key service (lawn mowing) but also that the service is professional.
