## **VetDX Web Page**

### **Mission**

VetDX is deploying a Software as a Service (SaaS) platform to facilitate the efficient collection, transmission, secure storage and anonymised analysis of data integral to animal diagnostics.

### **Capabilities**

- Originally developed for the human market, the core platform has been deployed in the UK and Ireland and has been used to securely process nearly 3 million cases
- The platform has been widely used by leading pharmacies, employers, the NHS and most of the UK's largest private sector laboratories

### **Turnkey Initial Veterinary Deployment – Animal Health and Welfare Pathway**

VetDX is finalising the design of a bespoke platform to facilitate the collection and processing of data and tests for the Animal Health and Welfare Pathway. Key elements include:

- Facilitated data collection at the farm by vets
- Secure and efficient processing of test samples by labs
- Digital results reporting
- Invoice support
- Data analysis reporting

Interested parties seeking further information should contact us at [info@vetdxs.com](mailto:info@vetdxs.com)

### **Background**

VetDX is a joint venture between:

- RAFT Solutions Limited (RAFT), an innovative veterinary-led, close to market sustainable food research organisation. RAFT brings together a team of highly experienced vets representing key opinion leaders within the livestock industry and additional technical support staff through its shareholder practice Bishopton Veterinary Group, Yorkshire. Bishopton is a 75 year old six centre veterinary group in North Yorkshire, focusing on livestock and equine. In turn Bishopton is part of XLVets, an independent grouping of 40+ Farm and Equine practices across the UK.
- Personalised Diagnostics Limited (PDX), is a rapidly growing Software as a Service platform provider in the digital health market. PDX deploys its agile and collaborative software development process working in partnership with its clients, using the skills

of both parties to build the best solutions as effectively and efficiently as possible. Its clients include some of the country's largest pharmacies, employers and laboratories.
