

Serving Sweetness Since 1960

Ken Daniels founded Ken's Bakery in 1960 having recently returned home from his service in the U.S. Marine Corps. The roots of this family owned business, however, date back over a century when Ken's father sold his baked goods on street cars, then via delivery truck, then through his Daniels Pastries retail establishment in downtown Oklahoma City.

Today, Ken's Bakery is a wholesale manufacturer of frozen bakery products whose clients are primarily food distributors. Our products can be found in restaurants, casinos, in-store bakeries, and schools in multiple states. The size of our business positions us to be competitive with our pricing and flexible to meet unique customer requests.
