

NO CHEMICALS, NO PILLS, JUST RELIEF. THAT'S

The Best Pain Relief Nature's Ever Made

Grenada Nut Company is the one
stop shop for safe and effective
topical pain relief.

Consistent

Our products effectively reduce pain within minutes of application in users across the lifespan with varying diagnoses whether their pain is acute or chronic both within and outside of the U.S.

Convenient

Whether you're looking for a spray to loosen up a trigger point, cream for soft tissue mobilization or a soak to improve range of motion, we have the product to accommodate your needs.

Committed

We don't stop at offering our customers topical pain relief options. Instead, we provide resources to help them understand pain and how they can experience healthy pain relief overall.

The MegRelief Experience

MegRelief products redefine what it means to have pain relief from topical creams.

When used in the clinic, it improves the productivity of the session as patients move more effectively and with less apprehension. When used at home, the result is higher compliance with home exercise programs. With more productive sessions in the clinic and more exercises done at home, the end result is improved quality of life and outcomes for patients.

Why choose us?

Because your patients will thank you for it and we would be honored to partner with you as you combat pain naturally! Here is what one of our users said:

"I suffer from multiple autoimmune diseases which keep me in different levels of pain daily. Over the years, I have used Tiger Balm, Icy Hot, BioFreeze, Aspercreme and Lidocaine patches, but none worked as well as MegRelief. Since using MegRelief, I have cut the number of narcotics I take daily. Thanks MegRelief!"
