Our Founder & His Inspiration

Dr. Elite ~ B. C. (Trey) Goodman Sr, began Personal Training in 1994, Sports Medicine Physical Therapy in 2002, then began investing his focus on Holistic Alternative Medicines in 2006, due to a loved one's continuous bout with chronic inflammation and fibroids. Saddened and Frustrated, after realizing that EVERY single "Multivitamin" supplement in existent on the market contained; Useless, Toxic and Synthetic - Vitamins, Additives, Preservatives and Fillers, in addition to Fitness Training & Sports Rehabilitation services, Trey (now a Naturopathic Medicine Research Scientist) added the Nutrition Department, to further dedicate to Total Cellular Health & Wellness, supplying the absolute finest-quality nutritional supplements to meet the individual needs of both Natural Health & Sports Performance enthusiast who demand, "**Quality Nutrition 4 Quality Of Life**" / **Performance**

The creations of **Royal Star Caribbean Sea Moss SuperFood Blends** are inspired by Trey's wife Nasiya, a former Vogue Fashion Model born and raised in the Caribbean. *Royal Star Caribbean Sea Moss SuperFood Blends* use; Both **Sun & Freeze Drying**, **Cold Pressed** and **Cold Process Fill** Techniques and Technologies (which rank at the top of Natural Foods production process), are utilized to meet the needs of the fast- growing trend of health-conscious consumers. These practices are highly regarded as they enable 1` Sport Of Life Supplement Products to retain greater nutritional value, greater effectiveness and taste fresher than any other Health Supplement Brand you will find, **GUARANTEED !**

1` SPORT OF LIFE – Nutrition's – Elite Multi-Nutrient Supplement Formulas, are premiere combinations of various **FDA Manufacturing Compliant**, **LIFE PERFORMANCE ENHANCING** ; - Vitamins, Minerals, Bioflavonoids, Enzymes, Trace Minerals, Phytonutrients, Prebiotics, Antioxidants, Amino Acids, Natural BSCG Approved Sports Performance Enhancement Supplements, Whole Foods, and Herbal Extracts that are originally found in foods. **SO ENJOY WITH PEACE OF MIND !**

INSIDE CENTER:

THE ROYAL STAR NUTRIENT ADVANTAGE

ALERT: Let Us Be The FIRST To Tell You The TRUTH !

NO, SEA MOSS does NOT contain “92 Minerals”. IT IS A FLAT OUT LIE ! Why was it first told? We will never know. Why is it continuing to be uttered? IGNORANCE and PERPETUAL MARKETING to sustain sales.

In Fact; there are only roughly 10-17 minerals found in “Irish” or any other commonly sold “Sea Moss” species variations. Even its vitamin content is grossly insignificant. Iodine and Iron are the only two significant minerals Sea Moss contains. BUT, no need to panic, because it was never the mineral content that makes Sea Moss so beneficial to our #BetterHealthToday journeys. Now the few minerals actually present in Sea Moss have VERY HIGH VIBRATIONAL ACTIVITY, due to the constant motion it is subjected to in the ocean. This Vibrational Activity is what in turn boosts the Vibrational Activity in our cells, leading to a Higher Feeling of VITALITY. BUT, the reason why some Sea Moss enthusiasts report different

effects, is because of the various Growing, Harvesting and “Final Product” Processing methods, which either disallow the Sea Vegetation to produce higher enough Vibrational Potential to begin with, or simply diminish during the entire process on the journey to you.

1st Sport Of life's ~ *Royal Star Caribbean Sea Moss SuperFood Complex Gel* is unique in its ability to present not only a COMPLETE Vitamin, Mineral and a 250 plus multi Phyto-nutrient profile food supplement, but also one that is **HIGHLY VIBRATIONAL, SOLAR CHARGED, SCALAR ENHANCED CBD and SUPER ANTI-PATHOGENIC SCALAR SILVER**. Then specific **FREQUENCY settings** conducive to **HEALING ~ DETOXIFICATION ~ CELLULAR ENERGY & ANTI-AGING**.

With the infusion of **SCALAR WAVES**, ***Royal Star Caribbean Sea Moss SuperFood Complex Gel*** is imprinted into its very molecular structure, Bio information to Boosts and Sustain the natural **Antibacterial, Anti-inflammatory and Antioxidative** benefits, normally lost during cheap and inefficient cultivation and processing.

MEMO: IT IS CRUCIAL TO BE AWARE OF THE FACT THAT, Due to current U.S farming practices, demand for mass food production, overuse soil depletion, the toxic condition of our living environment, use of artificial growth inducing chemicals and simply the time it takes to actually consume, which could quite possibly be days or even weeks considering; (harvest/picked, preserved/stored waiting for transport, travel time-(land, air, sea), displayed-(periodically spritzed and in a freon produced artificial cooling environment to encourage the appeal of freshness) THEN purchased and cooked or prepared for consumption. Bottom line, our foods are less nutrient dense, then ever before. In fact, The U.S. Department of Agriculture says that it takes seven cups of today's spinach to equal the nutrition that a single cup provided in 1960. So we are not getting the Recommended Daily Allowance, (RDA) of vitamins and minerals necessary from our foods. Even when we consume the suggested daily servings of fruits and vegetables. Sadly, due to the fact most of these Nutrients are either completely absent, or contain levels so depleted, it leaves our eating experience to equate to the, “**Living 2 Eat**” philosophy oppose to the Holistic Optimum Health avocation of, “**Eating 2 Live**”

For the human body to complete all the tasks it has in a normal day, it must be given a wide and complex variety of vital nutrients. Becoming deficient in any one of these essential vitamins or minerals, causes breakdown of the metabolic pathway that produces optimum efficiency and performance declines rapidly. Bodybuilders, athletes, and people that lead active lifestyles need even more nutrients than the average non-active person. With every exerted breath, (as when stressed or exercising) your cell nutrient stores deplete more rapidly and are bombarded by Cell Destroying FREE RADICALS.

Some Foundational Keys For A Good Supplement Program

You wouldn't buy a 4 legged table with two legs missing, or even build a house on a slippery slope! So please don't make the mistake of initiating a #GetFit journey, without first assuring the Presence - Absorption - Bioavailability and Utilization of some vitamin and mineral basics, for the trillion of cells in your body. Nutrient deficiencies, Malabsorption and Cellular Utilization inadequacies, do indeed increase with “**Actively Fit Lifestyles**”.

As supported by the Journal of Nutrition; 131(suppl): 1344S-1348S.

Health Science adhered arrangements of nutrients such as those found in our Royal Star Caribbean Sea Moss SuperFood Complex Blends, are proven to interact with one another at the sights of absorption in the Intestines, resulting in enhanced chemical changes in bioavailability.

Our extensive research history which includes the collective conclusions published in the likes of the Journal of Nutrition, American Journal of Clinical Nutrition, International Journal of Vitamin and Nutrition Research, Biotechnology Today and as well as many other prestigious universities sited globally, there is indication with confidence, that without such various vitamins, minerals, enzymes and other nutrients, cellular utilization is often up to 3 times less effective. So Royal Star Caribbean Sea Moss SuperFood Complex Gel yet ANOTHER great nutritional supplement to add to the Quality Of Life bag. Rather you add it to your Morning Smoothies, or the post workout recovery, it'll be a WIN-WIN, for the entire body.

Like our Foundations Of Life ~ Liquid Multi-Nutrient Formula, this Royal Star Caribbean Sea Moss SuperFood Complex Gel undergoes mindful cultivation and processing to secure the presence and activity of **Anthocyanins**. The Anthocyanins present in these two supplement products possess Antidiabetic, Anticancer, Anti-inflammatory, Antimicrobial, and Anti-obesity properties and effects, as well as some Preventive components against Cardiovascular Diseases (CVDs). Therefore, anthocyanins properly harnessed from edible plants, are potential pharmaceutical ingredients that you can actually obtain TODAY.

So that along with the foundational provisions of every vitamin and mineral your body needs to help maintain cellular efficiency, our Royal Star Sea Moss Gel helps activate enzyme systems that are essential to cellular function. Phyto-nutrients which are found in various forms of plant life are so important that nutritionists recommend at least 5 to 7 servings of fruits and vegetables per day, and suggest even more is better. Sadly, less than one in five Americans get even half of these amounts.

Unlike ANY other Sea Moss product, our Royal Star Caribbean Sea Moss SuperFood Complex Gel also delivers enzymes, metabolic factors, flavones, trace minerals, amino acids, antioxidants, and countless co-nutrients and phyto-chemicals. Together, these things present to you a Superior Multinutrient Sea Moss Food Supplement like none you've ever experienced before. "To SUPPORT Good Health is one thing, but to actually BUILD it, is another thing ENTIRELY".

Dr.Elite~ B. C. Goodman Sr.

INSIDE RIGHT:

"Engineered by NATURE, Enhanced by SCIENCE, Administered by YOU"

Some Of The Many Whole Food Sourced Features

Genus Gracilaria Sea Moss:

The maroonish red, purple and hints of gold, are reflective of the unique Tropical Caribbean Rays, Tighter Lateral Coastal Currents and Warm Water Sea Probiotics, making for a more vibrant and vast blood type cohesiveness.

REAL Brain Nourishing Vitamin B12

Unlike Synthetic B12 (Cyanocobalamin) which is also a Carcinogen, this contains B12 in the form of Methylcobalamin, to better facilitate red blood cell formations and actually repair damaged DNA.

Whole Molecular Vitamin C:

No synthetic "Ascorbic Acid " (which is Highly Acidic) but rather an infusion of a buffered Vitamin C Ascorbate, (neutral PH) along with Whole Fruits derivatives from Camu Camu & Acerola Cherry to also provide Bioflavonoids, Tyrosinase (for UV protection and skin healing) and multiple Co-Factors like P, K and J, to better fight infections, neutralize Free Radicals.

Supercharged Vitamin D:

The Sea Moss and other Red Marine Algae in this Royal Sea Moss Gel are exposed to the Sun 365 Days a year. This Supercharges the Cholecalciferol Vitamin D with an extended cellular potential like no other Vitamin D source, to create a food supplement with an optimum absorption functionality and facilitate greater cellular resistance to disease.

Prebiotic Digestive Fiber Boosts:

Attributing to a more efficient digestion experience, we have added an Organic FOS blend with Inulin and Whole Blue Agave Plant. Helping to minimize nutrient contamination post capillary transfer, eliminate excessive Gas, alive Constipation, soothe your Upset Stomach, minimize gut inflammation and address ulcers.

Fermented Vegan Amino Acid Blend:

These super Bio Active Protein catalysts for faster Assimilation, Enzymatic Functions necessary to boost Vitamin, Mineral and other nutrient competency and proper hormone production.

Omega Fatty Acid Blend

From plants oppose to fish, (Flaxseed, Sunflower & Safflower) thus a more strategic counter of the common 10-15:1 6&9-3 ratio imbalance. Prioritizes inflammation when the body requires it, then self counters it, when appropriate. They improve Health odds, enhanced brain and joint function and have muscle-building and fat-loss benefits for athletes.

Water Soluble CBD Extract:

Interacts with neuroreceptors in your endocannabinoid system to help balance issues concerning

your movement, mood, homeostasis and immune system.

Super-Phyto Blend Addition:

Features a plethora of Whole Food, Concentrates and Extracts (Fruits, Veggies Herbs) with Hi-ORAC registration, cellular repair, fortification and anti-oxidation functions. From Aloe Vera Juice, Goji Berry extract and Indian Gooseberry extracts, to Green Coffee, Turmeric, Kale and Holy Basil Concentrates & Extracts. Try more than 50 Whole Food Sources in total.

Cardiovascular, Liver, Kidney Detox & Strength Support Blend:

Led by Trymethylglycine and Fenugreek, this blend targets to support functional efficiency,.Aiding in optimizing pathway debris flow, improve creatine synthesis and fat metabolism for improved heart function, body composition and muscular performance.

Youth and Energy Complex:

Pure Elderberry Juice, Maca Root, Trans-Resveratrol and more, are great additions to simply put, Slowing-The-Aging-Process...

Plant Derived Fulvic Mineral Boost:

Along with Cell Alkalizing properties, these varieties also additional components, Bio Active for faster assimilation and utilization for their ever revealing roles of Cellular Activation, necessary to boost Vitamin, Mineral and Enzymatic competency to reduce functional fatigue and Brain Fog.
