

## 617grit – T-shirt brief for design concept of “Hell Bent Not Broken” Design Request

← Left sample image: I like the wing style.

**T-Shirt Wording:** Hell Bent Not Broken

**Overall Design Instructions:** The T-shirt should have the above wording: Hell Bent Not Broken

Otherwise I would like to give some creative freedom here to the designers. My idea was to take flames at the bottom of the design and turn the flames gradually into wings towards the top of the design. However, the wording is the most important “Hell Bent Not Broken”. I don’t know if this would look best in a Badge type template or something else. Show me something cool. I want this to eventually be a unisex T-shirt design concept
