 Lifestylepanel

ABOUT US

Lifestylepanel (LSP) is a guest and patient facing technology innovator servicing the Hospitality, Healthcare and Mining industries. With a solution-based focus, LSP creates better end-to-end experience and efficiencies for guests, patients, employees, managers, owners, and partners.

From project consultation through to design, delivery, ongoing service, and support - LSP delivers exceptional experiences at every point of the our client relationship.

Our commitment to technology and development allows LSP to continually evolve and strengthen our best of breed products creating flexibility to meet individual business requirements. Having delivered some of the largest and most prestigious projects, LSP currently manages over 12,000 endpoints in Australia and internationally.

Lifestylepanel is a non-listed public company that operates offices in Australia, New Zealand, Singapore and the United States of America.

OUR CORE VALUES

LSP understands our reputation is earned one customer at a time. Therefore, we focus on the delivery of industry best practices and outcomes that adds value to our partners and clients.

We strive to provide our staff with a work culture that is conducive to excellent service and innovation, allowing them to be creative and open-minded with tailored solutions.

1. **Deliver excellence through service**
2. **Embrace and drive change**
3. **Pursue growth and learning**
4. **Build open and honest relationships with communication**

WHAT WE DO

Consult & Design

LSP utilises the vast industry experience and expertise of our team to assess the system design, aesthetics, and overall infrastructure providing value-added and effective solutions.

Our design is not just about how a solution looks, but just as importantly, how it works and what it achieves. This ensure the system performs to the client's needs and is appropriate for the environment.

Project Management

LSP provides dedicated project teams that apply specific processes and principles to plan, execute and manage new deployments.

We manage the project process from start to finish to remove the stress of implementing new systems. LSP provides full documentation with regular and transparent communication ensuring key stakeholders are well informed throughout the process.

Installation

We remove risk by maintaining the strictest adherence to safety and compliance standards.

At LSP it's not just words, we really are specialists in our field. Working at the forefront of industry technology, we leave our clients with a safe and compliant installation.

Service

LSP offers a range of comprehensive managed services providing our customers total peace-of-mind.

We understand each business is unique. LSP has flexible service & support options to accommodate individual requirements.

PRODUCTS & SOLUTIONS

Interactive TV

LSP provides and manages a range of Interactive TV solutions to enhance quality of service, viewing experience, security, and reliability. With vast IPTV & MATV experience, our engineers can assist with network design, product build and deployment of Guest & Patient interactive systems to add value to your property asset.

Real-Time Location System (RTLS)

RTLS is an important component in modern facility management, enabling businesses to better track assets and personnel, improve workflow, and deliver better safety and security. The accurate data and reporting provides key insights into business efficiencies that highlights areas for cost savings and increased productivity. In addition the solution has a duress functionality for added security and safety.

Managed Wi-Fi

Connectivity is a critical component in today's modern world whether for business, keeping in touch with family or personal entertainment. LSP provides a secure Wi-Fi network with management and reporting on devices, authentication process, bandwidth allocation, billing & remote monitoring.

Casting (BYOD)

Guests or patients can bring their own devices and content to seamlessly connect and stream on the in-room TV. LSP's casting platform includes a fully managed network covering bandwidth usage, device status, Wi-Fi connectivity, data, and analytic reports.

LSPcare

LSPcare is new generation software and hardware designed to meet the objectives of the Healthcare markets for Patient Engagement Solutions. With extensive industry experience, LSP can build and customise the best outcomes for patient entertainment and education.

Food & Beverage Ordering

Get the taste buds moving with hi-res images and facilitate simple on-screen Food & Beverage Ordering via the TV. Allow the customer to relax in the comforts of their guest room whilst retaining and enhancing their F&B spend in-house.

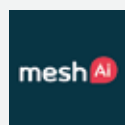

Digital Signage & Kiosk

Engage and capture the passing foot traffic with Digital Signage or Touchscreen Kiosks to promote in-house services and facilities. Real-time and remote management allows tailored messaging throughout bars and restaurants, conference spaces or public areas.

DEVELOPMENT PARTNERS

LSP pride itself on only partnering with leading suppliers of tier-one products and services.

PERFORMANCE & PARTNERS

Royal

hotels

CLUB WYNDHAM GRAND DESERT - LAS VEGAS

Wyndham engaged LSP to design and implement an upgrade to their guest TV content across their existing MATV network for 787 guest rooms and 1,979 televisions. The deployment and management of a Samsung REACH platform was used to deliver instant and dynamic content to all guest rooms to promote Wyndham membership, hotel group portfolio, facilities, and promotions.

ROYAL ADELAIDE HOSPITAL - SA HEALTH

LSP upgraded the Royal Adelaide Hospital with an Android OS Lincor solution on an IPTV network to facilitate and align the goals of patients and the hospital:

Better Outcomes - Educated patients are engaged patients

Reduced Costs - Improves workflows and eliminates redundancies in care continuum and less likelihood of re-admission

Enhanced Patient Experience - Provides a modern patient-centric experience that addresses safety, timeliness, and education which facilitates and engages the patient
