DOMES

The Evolution Dome inflatable domes are suitable for all weather use (up to 55 mph) and are offered in either basic 'off the shelf' designs, or fully bespoke designs manufactured to fit your specific project. We can design and manufacture all types and sizes of inflatable domes for both temporary use or semi permanent applications such as event domes, sports pavilions, etc. Every inflatable dome can be made in a huge range of colours and be fully branded to suit your corporate image. We can incorporate flooring, doors and lights to ensure your air dome is creatively designed, whilst offering a fully usable and practical design. Inflatable domes offer high visual impact and are a great alternative to traditional temporary structures.

Cubes

Ranging from our 6m cube right up to our 20m x 40m cube which offers nearly 685m² of usable floor space, these structures provide huge branding and advertising opportunities on the outside, with slick, clean and elegant lines on the inside. We can design and manufacture all types and sizes of inflatable cubes for both temporary use or semi permanent applications. Every inflatable cube can be made in a huge range of colours and be fully branded to suit your corporate image, brand awareness campaign or event. We can incorporate flooring, doors, windows and all other aspects to ensure your inflatable cube is creatively designed, whilst offering a fully usable and practical design. Inflatable cubes offer high visual impact and are a great alternative to traditional temporary structures.

Airoof

The Airoof System is one of Evolution Dome's most versatile and dynamic alternative Marquee, offering the most modular system within this range of products. The durable Airoof system can be used as a singular unit or as multiples, zipped together to create a tunnelling system. The Airoof System quickly becomes an impressive main event structure, offering corporate vip entrance and multi roomed event spaces. By simply zipping together multiple units, larger expanses can be covered for numerous occasions and events. This helps to create the perfect event structure. This structure is available in white or fully branded for your company, brand or event. Available in 11x6 or 15x6 metre sections.

Luna & Luna XL

The Luna range offers a high quality one-man install event structure that can be used anywhere from town center promotions, indoor exhibition, product launches, brand awareness campaigns and experiential events. As well as bespoke design we also offer an on the shelf range available to hire and purchase. The product can be custom designed, printed and as all of our products you will receive a computer visual of how your structure would look prior to ordering it. Large enough to make an impact but packs down small enough to fit into a rucksack.

X-Pod

The Xpod is a quick, light and portable Pop Up Marquee that is available in 3x3m, 4x4m, 5x5m and 6x6m 8x8m models. It is fully waterproof and the sealed air design means that constant power is not required to keep it inflated. It comes complete with a convenient portable carry case and can be transported in the boot of a car.

The Xpod can be fully branded and made in any color required. It can also be joined to other Xpod's using a waterproof joining strip.

To complete your event, we also offer lighting, power, heating/air conditioning and a variety of flooring options.

Office Pods

The inflatable office pod is one of our highly versatile indoor structures. The office pod comes in a range of sizes with the smallest at 3x3m, the 3x4m and 4x5m, and the largest at 6x5m. All pods are 2.4m tall. The smallest of our pods weighs just 7.5kg meaning it can be easily transported in its bag. Despite its weight, the office booth provides a large usable floor area of 4.5mq when open, or 4.2mq when closed, providing a quieter and more private space.

The largest Inflatable Office pod at 5x6mq weighs 25kgs and has a usable floor space of 19.5mq when open. The large size makes it a perfect option for a pop-up conference and meeting room. It is capable of holding up to 32 people seated along with a projection screen/podium and speakers set up. Due to the intelligent design, the pop-up office space is freestanding meaning that no space is wasted and no unsightly rigging or stands are required.

Pop-up office spaces are a great idea for break-out rooms during your conference or event. These easy to install office pods provide privacy and can be branded to meet your companies requirements.

Panoramics

The Panoramic Inflatable Pop Up Pods are the latest addition to our range of indoor structures. With curved walls and a circular footprint, the pop up pod has all the appeal of our inflatable domes but without the roof! This feature means that no light is lost within the structures, the Inflatable structures are still very much a part of the overall space as a whole and the zip system allows for these structures to be placed around pillars and other permanent fixtures and fittings.

We currently stock the structures in 4.5m, 6m, 8, 10, 12m and 14m models however we can have bespoke models made to order for those wishing to purchase.

We also offer complete packages to include, lighting, power, and a variety of flooring options. If you are looking to make your mark at an event are in-house design team are on hand with a range of branding options to choose from.

WALLS

Our Inflatable walls are one of our highly versatile indoor structures. Temporary inflatable walls come in a range of sizes. A great option for the partition of spaces in as little as 30 minutes. We also stock curved air walls and additional corners, allowing you to create the exact space and dimensions that you require. Due to the intelligent design, the air wall is free standing and a great insulator of sound from distracting outside noises. Washed with colour from our LED package the walls look fantastic. Our LED lights can be set to reflect your brand or set a required ambient mood. Should you need branding on the walls, we offer Dacron stickers which can be applied onsite when the structure is installed.

Inflatable walls are 2.4m tall and we have a variety of lengths available to choose from.
