# DOMES

The Evolution Dome inflatable domes are suitable for all weather use (up to 55 mph) and are offered in either basic 'off the shelf' designs, or fully bespoke designs manufactured to fit your specific project. We can design and manufacture all types and sizes of inflatable domes for both temporary use or semi permanent applications such as event domes, sports pavilions, etc. Every inflatable dome can be made in a huge range of colours and be fully branded to suit your corporate image. We can incorporate flooring, doors and lights to ensure your air dome is creatively designed, whilst offering a fully usable and practical design. Inflatable domes offer high visual impact and are a great alternative to traditional temporary structures.

# Airoof

The Airoof System is one of Evolution Dome's most versatile and dynamic alternative Marquee, offering the most modular system within this range of products. The durable Airoof system can be used as a singular unit or as multiples, zipped together to create a tunnelling system. Incorporating the unique central hub (either Quad or Treble) the Airoof System quickly becomes an impressive main event structure, offering corporate vip entrance and multi roomed event spaces. By simply zipping together multiple units, larger expanses can be covered for numerous occasions and events. This helps to create the perfect event structure. This structure is available in white or fully branded for your company, brand or event. Available in 11x6 or 15x6 metre sections.

# Luna & Luna XL

The Luna range offers a high quality one-man install event structure that can be used anywhere from town center promotions, indoor exhibition, product launches, brand awareness campaigns and experiential events. As well as bespoke design we also offer an on the shelf range available to hire and purchase. The product can be custom designed, printed and as all of our products you will receive a computer visual of how your structure would look prior to ordering it. Large enough to make an impact but packs down small enough to fit into a rucksack.

# Office Pods

Create a 'Wow Factor' at your next exhibition. Inflatable event structures and exhibition shells are an ideal and hugely popular alternative to more traditional hard built temporary exhibition shells, or other more costly schemes. Our inflatable event structures offer a very creative approach, once installed, they are very quick to set up and remove at any event! Simply pull out of the bag, plug in, inflate and stand back and watch as your fully branded inflatable event structure rises quickly and efficiently with minimal fuss. As they are inflatable, these event structures pack down to a very small size for transportation and storage between exhibitions and events. Everything you need for your inflatable structure comes included in the bag, and installation requires virtually no building skills so your air structure can be used again and again, with no waste products.

# Panoramics

Evolution Dome offer a range of show stopping, simple and effective, modular Inflatable wall system. Our cube walls are completely modular and often used to make creative exhibition spaces, designed to add a flare and stand out from the crowd, highlighting your company and brand at an exhibition, used to create different break out areas or even to divide up a large spaces. Our rental range includes a truly flexible wall system, meaning you can create separation and breakout areas easily. Our Inflatable wall system is available in 1, 2, 4, 6 and up to 8m walls which can easily be connect together in a straight line, at right angles, T shapes or even in an X configuration. The Walls pack down into small rucksack packaging bags and can be installed in a matter of minutes.

# WALLS

Evolution Dome offer a range of show stopping, simple and effective, modular Inflatable wall system. Our cube walls are completely modular and often used to make creative exhibition spaces, designed to add a flare and stand out from the crowd, highlighting your company and brand at an exhibition, used to create different break out areas or even to divided up a large spaces. Our rental range includes a truly flexible wall system, meaning you can create separation and breakout areas easily. Our Inflatable wall system is available in 1, 2, 4, 6 and up to 8m walls which can easily be connect together in a straight line, at right angles, T shapes or even in an + configuration. The Walls pack down into small rucksack packaging bags and can be installed in a matter of minutes.
