

Dear Arham,

2. We also like how the check mark is cut off at the bottom above (feels more modern)

Please use this font, colour & size + vertical line

+ we prefer the letter mark to be in 1 colour (orange)

1. We love how your letter mark feels more like a **TW** than a **TV** as in the first design:

TECHWORKS
MAKING TECHNOLOGY WORK FOR YOU

3. So we finally came to this combination of both designs: having the leg of the T straight in your design + increasing the spacing a bit in between the different elements + cutting of the bottom of the W slightly

+ and then please put the whole letter mark in orange:

TECHWORKS
MAKING TECHNOLOGY WORK FOR YOU

○ = we like 😊

THANK YOU!!
