EMBELLISHMENTS

Please check all copy and legal standards thoroughly as the responsibility for its accuracy rests with you, our customer. Please sign and date your approval for print. All colour represented are simulations of pantones, 4/col process and should not be treated as an accurate guide to print quality. Please note that we recommend all barcodes be a minimum magnification of 85%. Where GS1 verification is required, barcodes less than 90% magnification are less reliable and may fail.
