

Step 1. Inspect general shape

- Is it what you expected?
- Is it bent, disoriented?

Step 2. Inspect the welds if there are any

- Do they look clean?
- Are there any gaps?

Step 3. Inspect the finish

- Are there any areas not finished?
- Are the colors what you expected?

Step 4. Check for functionality

- Does it work the way you want it to
- Is it what you expected?
