

Design Brief

Kununurra Volunteer Fire and Rescue Service

The logo should incorporate the elements in the sketched design. These include:

- Boab tree as a silhouette
- Crossed Hooligan tool and axe in front of the boab.
- Ladder and ceiling hook
- Hydrant standpipe (BIC)
- The station number "107"
- Wording
 - Fire & Rescue
 - Western Australia
 - Kununurra
 - Est 1973 (above the boab inside the circle may work better than where it is on the sketch)
- Western Australia and Kununurra should be in a ribbon style like the WA Fire & Rescue Logo shown.
- Colours can be close to the WA Fire and Rescue logo shown. Or of a suitable pallet that represents a fire service (red etc.)
- Logo should be suitable for print, engraving, tee shirts, coins etc.
- Fire fighters cross (Florian cross)
- Circle can be continuous rope like the Volunteer Fire & Emergency Services logo shown.
- General shape should be similar to the WA Fire and Rescue logo shown.
