

Custom Yard Sign

Cut According to Chosen Options

Layout: Double-Print
Finished Print Size: 24in x 18.1in (W x H)

WE USE A FULLY AUTOMATED ARTWORK CHECKING SYSTEM

- To ensure the quickest and most accurate verification and reproduction of your artwork, please use the template on page 2.
- Follow all artwork specifications & guidelines and do not alter the template lines, artboard (Adobe® Illustrator®) or canvas size (Adobe® Photoshop®).
- You must follow these instructions to ensure your delivery time.
- For a full list of artwork specifications & requirements, please visit our website.

THINGS TO DO:

- Extend all artwork out .05cm past your cut line (bleed).
- Keep text, logos & important images .1cm inside your cut line or they might get cut off.
- Outline all fonts.
- Embed all placed images.
- Design with 100% opaque PANTONE® Color Bridge® colors for more accurate color reproduction.*
- Submit all artwork files in CMYK color space mode.
- ONLY SAVE AND SEND PAGE 2 WITH YOUR ARTWORK.

THINGS TO KNOW:

- The template is at 1:10 scale. DO NOT resize it.
- A minimum resolution of 800dpi is required for all raster (pixel) images. Higher resolutions are preferred.
- DO NOT alter the template in any way.
- DO NOT use any of the template spot colors in your artwork. Anything using these colors is viewed as part of the template and is automatically removed by our system.
- If multiple images are selected for a product, submit one file per image.
- For multiple print and/or double print products, please design on all layouts within the template even if the layout graphics are the same.

Custom Finishing Options

Thru-cut is used as a straight cut through thinner, less rigid material. Cuts are not always precise so extend all artwork 0.05 cm beyond your Thru-cut line. (bleed)

* Due to the nature of the CMYK printing process, the reproduction of PANTONE® colors is not always 100% possible.
Please reference a Pantone® Color Bridge® book to receive a process color simulation. Further information can be found on our website.

Be sure to read full design instructions on page 1.

Use the swatch color, [Thru-cut](#), when designing Die-cut lines. (stroke)
