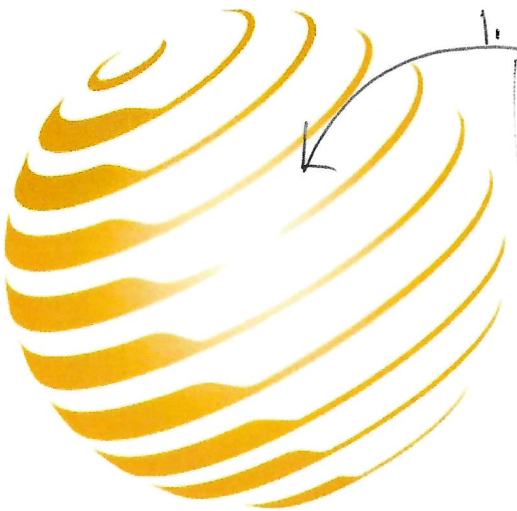
use CPA academy globe



~~2. this globe or the 1 from Logo1.jpg~~. I think I like this one if we overlap & do the highlighting of the letters as I ~~have done~~ (printed on this page)

1. move this to over lap a portion of the globe (maybe 1/3 over)

CORNERSTONE (spaced in the middle)

CPA

Retirement Solutions

The CPA part on top of the globe.

(terrible drawing!)

But down here put the CS logo - over at the top R corner

Let's see how this works.

I'd love to see
CORNERSTONE
across the top over the
CPA. All caps, not large &
then we don't need to fit the CS logo in.
Even though we don't use it in our name it then clearly ties it back to Cornerstone & the branding we do in the webinar

I know we want orange but can we add more gray or (black) → I think better
Maybe like I've done here highlighting inside the CPA letters?
