Our Story:

We believe that good things take time.

That's why Kylie, our owner and creator, has spent over 10 years perfecting her home fragrance range.

Each product is made in her studio located in her retail store in the heritage town of Richmond, Tasmania.

Richmond is the home of Australia's oldest operating bridge built circa 1823.

Bellevue House (circa 1840) is the former Police Magistrates Home in Richmond which has been lovingly restored over the past 6 years. Kylie's retail shop and studio are housed in the old horse stables, complete with cobblestone floor and original shutter windows which underwent a major restoration project in 2020. Other outbuildings include the servants quarters which houses a gin tasting room and landscape photography gallery and an old prison cell which housed the 'drunk and incapable' for overnight stays.
