Safety

LEADERSHIP BEHAVIOURS Which Reduce Injuries

- | | | |
|--|--|---|
| 1 Spend time with your team members and help them identify the problems, before they arise | 5 Welcome and listen, when your employees report safety problems and incidents | 9 Don't turn a blind eye to safety, even when you are running behind your schedule and under pressure |
| 2 Engage your employees in solving safety problems | 6 Make sure to praise and reward safety behavior | 10 Continually encourage employees to work safety |
| 3 Regularly discuss way to improve safety | 7 Provide constructive feedback for unsafe behaviors | 11 Be fair and don't allow double standards |
| 4 Often visit your workplace and observe your employees' safe behaviors | 8 Educate your employees on the importance of safety provide constructive | 12 Talk about your beliefs on the importance of safety |

Safety

Alberta Construction Safety Association-certified industry-leading safety program.

Orienting new employees and implementing Competency Training is essential for safety.

The team is composed of seasoned professionals and dedicated individuals.

For maintaining COR certification, we conduct monthly meetings, annual internal audits, and an external audit every three years.

Registered with ISNetwork, ComplyWorks & Avetta.

We offer Workers Compensation accounts in the provinces of British Columbia, Alberta, Saskatchewan, and Manitoba.
