

Welcome to The **UAE's** Jeep Club

2018- 2022

In April 2018, Jeep Nation was created by some of the best drivers in the UAE. Since then, it's grown into the biggest Jeep club in the Region.

We've created the following document for our members to help them understand what's needed for our drives and the off-road etiquette we expect.

We hope you enjoy this 2022/2023 Season!.

OFFROAD ETIQUETT

It has always been Jeep Nation's philosophy to run the club like a big family, and as a family, we should always respect one another on drives and gatherings.

The members of this family have made a list of simple ethical rules we follow as a family. We hope you will follow these rules as well.

- Make sure you are always on time!
- **Ensure that your fuel tank is full**
- Your Jeep must be in Good Condition
- **Front/Rear Rated Recovery Points**
- Always wear your Seatbelts
- **Young Children will only be allowed on Junior Trips**
- Tie down all items securely
- **Take & Drink Plenty of Water**
- Be sure to listen to your Marshalls, they are there to keep you safe
- **Keep the outdoors litter-free, and take your garbage home!**
- Please, Charge your Radio
- **You should purchase the items in the Equipment list, so that others don't have to use their equipment if you get stuck.**
- Buy a compressor! It's unfair to use others' equipment to pump up your tyres!
- **Any damage to your vehicle is at your own risk; Jeep Nation members or management won't be held responsible.**
- The Jeep Nation Marshalls and Support team do this for free! It will make their day if you bring them snacks, they will love you for it! :)

@mamounabed

Jeep Nation has always been a non-profit club and has never asked for anything from members.

The management, Marshalls & our dedicated Support team who make this club a reality have their own lives, children, horrible neighbours, stressful job, rabbits, etc.

The sport unites us, and we do this to share what others have taught us so you can teach others...
