FULL SPECTRUM
LED GROW
LIGHT

The Tangle® Vine Full-Spectrum LED Grow Light simulates the power of the sun's light by providing a light spectrum ideal for all types of indoor houseplants. Energy-efficient, it helps keep plants healthy, even in the darkest area of your home, all year round.

Featuring a 5" brushed gold metal ring, the Tangle® Vine Full-Spectrum LED Grow Light can provide light for plants up to 36" tall. Its functional, modern design integrates seamlessly into any space and provides a stylish element of decor.

FULL SPECTRUM

Creates a healthy harvest and allows for photore-spiration.

In all grow stages:

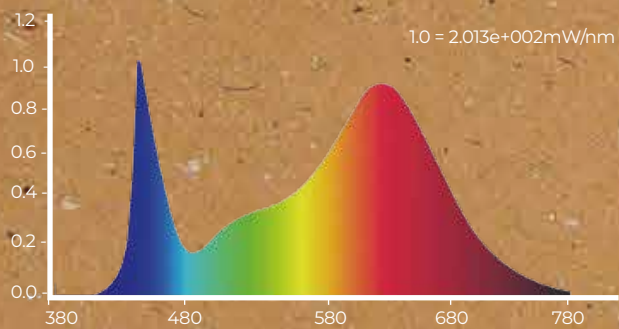

Full spectrum - mimics natural sunlight (emits from 380nm to 780nm).

In small amounts emits R and UV light.

During active photosynthesis:

Blue light increases chlorophyll resulting in strong, healthy stems and leaves;

Red light is essential for seed germinations and root growth. Later it promotes flowering and the production of fruit.

SPECIFICATIONS

Product Type:	Full Spectrum LED Grow Light
Material:	Aluminum Alloy & Stainless Steel & ABS & PP
Plug:	USB
LED Quantity:	49 pcs
Power:	12W
Input Voltage:	5v
Input Current:	2a
Working Temperature:	-15 °C -40 °C
Life Time:	50,000 hours
Lighting Range:	Ø 15.7 in circle
Distance from Lamp to Plant:	1.96 - 7.87 in

Tangle®
Vine

Auto ON/OFF

10 Dimming Levels

3 Color Modes

3/9/12H timer
