## *Multi-Layer Extruder*

To provide its customers with complete packaging solutions RUMA NATURALS has taken a big leap in the direction and is introducing a new sophisticated plant of Co-extruded seamless plastic tubes in India. The state-of-art plant along with the best combination of machines, experienced personnel and high quality standards are deployed to produce top quality of tubes as per customers requirement and to add more in dust free environment.

### **THE FEATURES OF CO-EXTRUSION TUBE**

Plastic material has its own characters. In co-extrusion system. We use and combine several kinds of materials. Therefore, the characters of single layer tube can't compete with the complex characters of co-extrusion tube.

- Extensive color combination  
( using: PE+PEARL/PE+PIGMENT)
- Excellent barrier property  
( using: PE/TIE RESIN/EVOH/TIE RESIN/PE)
- Scratch and dust free  
( using: LDPE/LDPE/LLDPE)

## *Fully Automatic Injection Heading Machine*

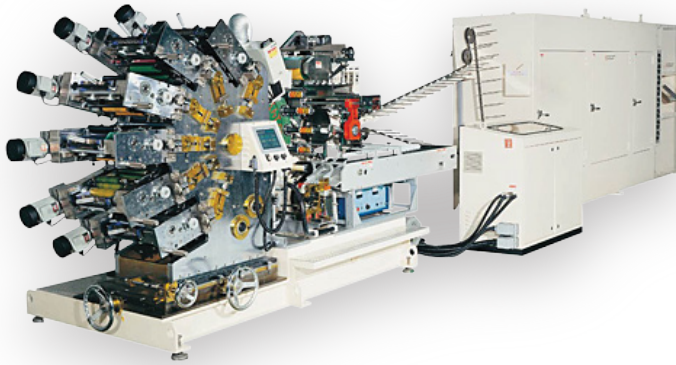

### **FEATURE:**

- 4-station horizontal indexing type with 4 mandrel
- A perfect shape of shoulder and neck
- High efficiency & flexibility

## ***Dry Offset Printing Machine***

Our Six color Dry Offset printing with high glossy surface enhancing the quality of the tube.

### ***FEATURES:***

- Precise index ensures accuracy of every movement. It is easy to disassemble the printing mandrel.
- Tube feeding system works with detector. Coating mechanism will move without tubes on mandrels.

## ***Automatic Drilling & Capping Machine***

Our Automatic Drilling & Capping Machine has a capacity of 80 thousand tubes per day with label application and induction sealing on tubes.

## ***Hot Foil Stamping Machine***

In addition, we have foil stamping as one of the decoration option, which adds value to your product. Foil stamping in golden, silver and colored foils enhances the beauty of your product. Foil stamping can be done on Tubes as well as Caps.

## ***Injection Molding Machine (For cap Molding)***

We have in house facility to produce Screw type caps & Flip Top Caps. We are manufacturing screw type caps from 19 mm dia to 50 mm dia. We also manufacturer Flip top caps of 35 mm dia, 40 mm dia and 50 mm dia.
