Worry-free
home comfort...
It's ours to give.

You're our #1 priority

And we can prove it.

Plumbing, heating, and cooling systems can't take care of themselves. That's a job for professionals. That's a job for PC Plumbing, Heating, Air & Remodeling.

You can help us do our job to the "max" by enrolling in our **Priority Service Club**. Think of it as the most PC for your money. While membership has more than its fair share of benefits, none is greater

than **annual plumbing, heating, and cooling system preventive maintenance**. That's the key to **fewer system repairs, longer equipment life** and your greater peace of mind.

Our advice? Enroll in the Priority Service Club today. And make "worry-free home comfort" your new normal.

More Club benefits.

While annual preventive maintenance is the driving force behind the Priority Service Club, check out what else your membership will include:

- **15% savings on all service and repair work**, including remodeling and handyman work
- **Three-year warranty** on all repair work
- **24/7 repair service**, guaranteed
- **No overtime charge** for after-hours emergency service, including weekends
- **No dispatch fees**
- **Priority scheduling**
- **Exclusive discounts** on new equipment and installation
- **Special added savings** on handyman and remodeling (kitchen & bath, floors & tiling, decks, windows, doors & more)

And yes, you really do get all that – plus annual preventive maintenance – for **one low monthly fee**.

Feel **extra** special. Because you are.

We treat all our customers with TLC. But Priority Service Club members feel the love more keenly having opted to receive a higher level of service to ensure their maximum indoor comfort.

Ask your PC service professional for all the details. He can enroll you on the spot. Or call our office and a member of our team can do the same.
