

## Useful Websites

Our alpha site is at <https://www.unite.com.ng/> . We are now going to focus fully on Team Buying but you may get some ideas from here.

The most successful team buying site is Pinduoduo, based in China. Temu (<https://www temu.com>) is their foreign version. You could get ideas from there.

Facily (<https://web.faci.ly/>) is the leading team-buying app in Brazil. You can download their app and play around with it, or check the website (you may need a VPN if you're not in Brazil).
