

## **CORPORATE PROFILE**

NSW CIVIL & RAIL LABOUR SPECIALISTS

Twenty3 Recruitment is a NSW labour hire agency specialising in the civil sector. With a strong track record of providing skilled and reliable workers to the civil and rail construction industry, we have established ourselves as a trusted partner for companies seeking efficient and cost-effective staffing solutions. Our team of experienced professionals is dedicated to meeting the specific needs of our clients, ensuring seamless project execution and successful outcomes.

## The Process

**Rigorous Selection Process:** Twenty3 Recruitment employs a meticulous selection process to identify and choose the most qualified and experienced civil labourers and operators. They thoroughly assess candidates' qualifications, certifications, and relevant experience to ensure they meet the industry's standards.

**Compliance Verification:** The agency places a strong emphasis on compliance with industry regulations and standards. They verify that all candidates possess the necessary licenses, certifications, and qualifications required for their respective roles. This includes ensuring that excavator operators, loader operators, pozi track operators, and moxy operators hold valid and up-to-date licenses for operating specific machinery.

**Reference Checking:** Twenty3 Recruitment understands the importance of reliable references. They conduct thorough reference checks on all candidates to validate their previous work history, performance, and reliability. By contacting previous employers or supervisors, the agency gains insights into a candidate's skill set, work ethic, and overall suitability for the role.

**Skill Assessment:** The agency assesses the technical competencies and skill levels of each candidate during the selection process. This includes evaluating their ability to operate machinery efficiently, follow safety protocols, and adapt to various work environments. By conducting skill assessments, Twenty3 Recruitment ensures that the operators and labourers they provide are proficient and capable of performing their duties effectively.

**Industry Experience:** Twenty3 Recruitment has an extensive network and deep knowledge of the civil and railway industries in NSW. They leverage this experience to identify candidates with relevant industry exposure and understanding. This allows them to connect clients with civil laborers and operators who have a track record of working on similar projects and possess the necessary expertise.

By combining a rigorous selection process, compliance verification, reference checking, skill assessments, industry experience, and ongoing monitoring, Twenty3 Recruitment strives to provide the best civil labourers and operators to the NSW Civil and Railway industries. Their commitment to excellence and attention to compliance and safety make them a reliable partner for organisations in need of qualified personnel.

Twenty3 Recruitment prides itself on delivering top-quality civil labourers and operators to the NSW Civil and Railway industries. The agency specialises in providing highly skilled professionals such as excavator operators, loader operators, pozi track operators, and moxy operators.

Twenty3 Recruitment is your trusted partner for labour hire in the civil construction industry. With our skilled workforce, tailored solutions, and unwavering commitment to quality and safety, we aim to support your projects and contribute to their successful completion. Contact us today to discuss your labour hire needs and experience the difference of working with a specialised agency dedicated to your success.
