RELATIONSHIP TOPICS

ARE YOU DATING A NARCISSISTIC BOYFRIEND

You probably told your friends and family that this person has the best 'life resume' and that they couldn't be a more perfect fit. Please note, it is easy to fall for someone who is customizing their own history and personality to be the perfect mate for you. It's almost impossible to notice anything bad at first because everything is so amazing. You thought you found your soulmate! If you are here looking for information about being in a relationship with a narcissist, then you may have felt that way once too but now things have changed. You are confused because the person you fell in love with is gone and they have been replaced by a person you don't even know.

Most people who report being in a relationship with a narcissist share that they were swept off their feet by the most charming, sweet, kind, caring, and loving person.
