Say hello to the clutter-free haven you've always dreamed of and take control of your space today with our top-selling Overhead Storage Bin Rail System. Experience the difference for yourself and elevate your storage to the next level! Act now and unlock the true potential of your space!

Specification List:

Design: The system is designed to accommodate 16" and 24" studs, complying with US and Canada standards.

Hardware: The package includes structural lag bolts and washers for secure installation.

Material: The system is constructed using powder-coated heavy-duty carbon steel.

Rail Measurements: The rails have dimensions of 26" in length, 2.5" in width, and 2.5" in height.

Weight Capacity: Each set of rails (2 rails) can safely hold up to 100 lbs. However, for both safety and easy access, it is recommended to store a maximum of 40 lbs per bin.

Bin Compatibility: The system is adaptable to fit bins of various sizes. For the best results, we recommend using durable black and yellow bins, which are readily available at major home centers.
