

We need to create an advertisement that is part of a newsletter that needs to conform to the following standards:

Specs & Requirements

Image Dimensions: 580x150

File Type: JPEG

Max File Size: 40 kb

Resolution: 72 dpi

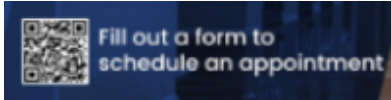

Clickthrough Link: One standard URL to a safe and secure (HTTPS) page on the client's website

The Starting point and then some requested changes.

Can you combine the two pictures together on the right side? No spaces between the pictures

Change #1

	 <p>Can you change the QR code text to: <i>Click to get a plan in place before this happens to you</i></p>	
--	--	--

Can you combine the two pictures together on the right side? No spaces between the pictures. See if you can keep the size of the logo and text the same as the original version

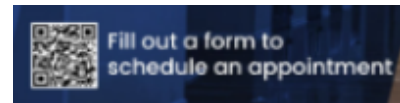

Option 1

		 <p>Put the two pictures together separated by a line</p>
---	---	--

Option 2

	  <p>Can you change the QR code text to: <i>Click to get a plan in place before this happens to you</i></p> <p><i>Place the QR Code and text in the sprinkler area</i></p>	 <p>Put the two pictures together separated by a line</p>
--	--	--

Option 3

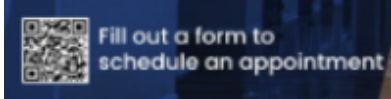

Put the two pictures together separated by a line

Place the QR Code and text in the top part of the picture above that has good contrast

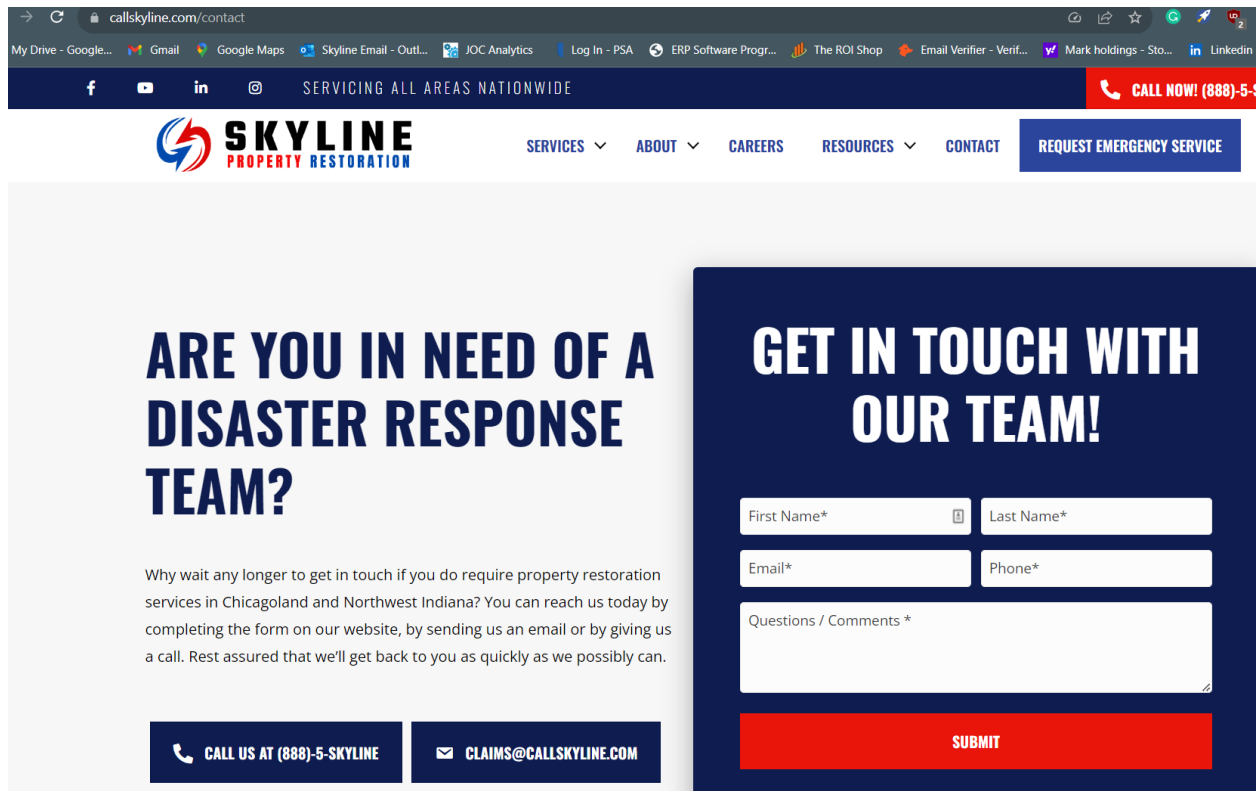

Try the QR Code text without the dark background to see how it looks

Navigating the URL's

	 <p>Can you change the QR code text to: <i>Click to get a plan in place before this happens to you</i></p>	
--	--	--

The QR Code takes the user to this page

<https://callskyline.com/contact>

The screenshot shows the Call Skyline website's contact page. The browser address bar displays "callskyline.com/contact". The website header includes the Call Skyline logo, navigation links (SERVICES, ABOUT, CAREERS, RESOURCES, CONTACT), and a "REQUEST EMERGENCY SERVICE" button. The main content area features the heading "ARE YOU IN NEED OF A DISASTER RESPONSE TEAM?" and a paragraph explaining the services. Below this is a contact form with fields for First Name, Last Name, Email, and Phone, along with a "Questions / Comments" text area. A red "SUBMIT" button is at the bottom of the form. Two call-to-action buttons are at the bottom left: "CALL US AT (888)-5-SKYLINE" and "CLAIMS@CALLSKYLINE.COM".

EMERGENCY RESPONSE PLANNING

At Skyline Property Restoration, we are ready to hear from you if you need help with emergency response planning in Northwest Indiana or Chicagoland. We are proud to specialize in the development, management, and implementation of Emergency Response Plans (ERP) in commercial buildings.

CREATING YOUR ERP

We can collect specific information that's unique to your building as part of the ERP process. This enables us to respond faster and minimize loss more effectively if a disaster does occur, whether the event is natural or manmade in nature. We have partnered with a wide range of business owners seeking to launch essential risk management plans into their properties and communities and require them to be successful.
