

# DESIGN BRIEF

Please create a version of this t-shirt design that is similar to the design in the example below. A separate document will be attached with the logo design you can alter to your liking that I would like you to use for this project.

## Main Image

I would also like to have a bottom hem tag of the logo on the bottom right of the shirt

## Color Palette

+ (1) MYSTERY COLOR

Please use your creative freedom if you have any unique ideas that would make this design look better but in the same format if possible
