

# Nook— Brand refresh

Nook

Logo

Classic, timeless, evokes the idea of modularity, space, architecture and customisation.

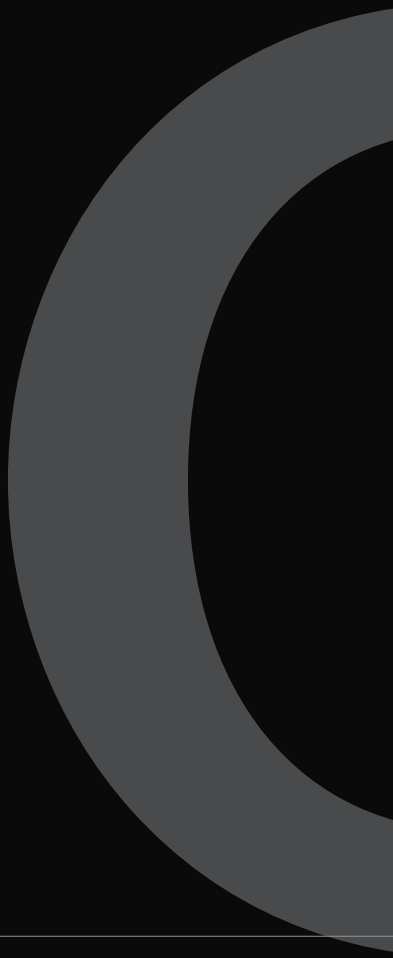

Super versatile, can be used really big, really small, positive or negative, on colour or imagery.

# Nook

Nook

Brand concept

Flat / blunt edges eludes to  
architecture and space

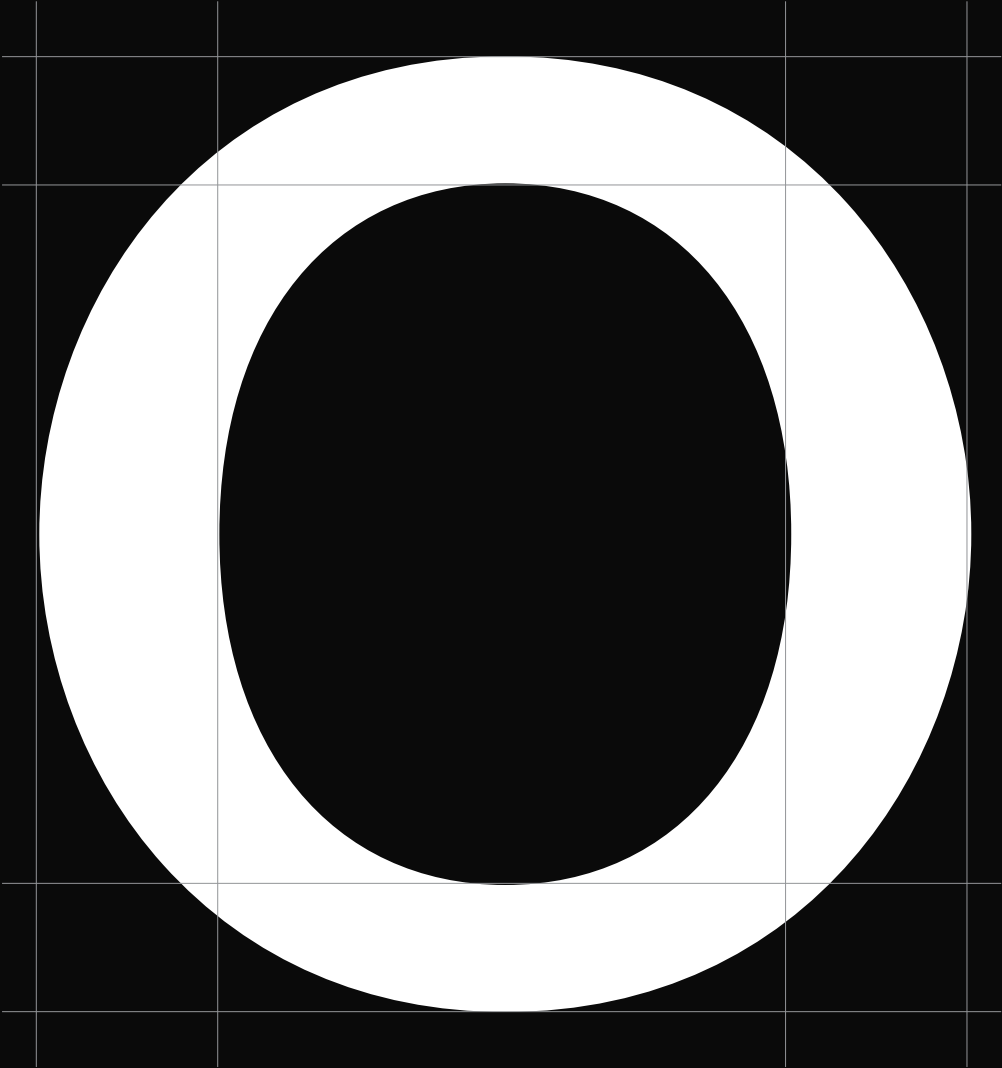

Bespoke 'k' with nook created  
in the negative space, feels  
architectural and modular

Subtle nuance in the width of the 'o's help it feel more bespoke and further help legibility

N and k forms are harmonious, and echo each other
