\$45
per person

Whisper Quiet Emissions Free Eco-Tours & Cruises

Turtle Watching/Sightseeing Bay Cruise

Experience Mother Nature at her finest enjoying a one hour cruise in near silence with only the sound of water lapping the boat's hull and no engine noise or fumes.

Within the bounds of the picturesque Pioneer Bay be on the look out for turtles and possible sightings of rays, eagles and the elusive dugong who visit the bay occasionally to feed on the sea grass.

The tour will take you along the coast line passing places such as Pigeon Island, Coral Sea Marina Resort and the local foreshore from Cannonvale to Mandalay.

So step aboard and enjoy one of Airlie Beach's most unique tours!

Sunset Cruise - One and a half hours

Could there be anything better to end your day than a one and half hour cruise of the bay aboard Tallulah? Enjoy an intimate tour watching the sunset with your partner or friends as the sun drops slowly to the west.

Then as night falls, look back on the township of Airlie Beach with the shimmering night lights glistening across the bay, all the while enjoying a complimentary glass of bubbles and nibbles.

You may also consider booking your own private charter to share with friends and family and take the day into the night with options to extend your cruise experience.
