

G-150

GUMMY PRODUCTION LINE

Gummy Production Line

G150 Automatic CBD Gummy Production Line

Output:60,000 gummies/hr

G150

**Starchless for gelatin
or pectin gummy**

Output:60,000 gummies/hr.

The G150 Automatic Gummy Production System
Is a stand-alone system with speeds up to 60,000
Gummies per hour, it is perfect for
CBD/THC/Vitamin gummies in one or two colors.

G150

Gummy Production Line

COOLING TUNNEL

Cooling Tunnel With 8hp Chilling System and Desiccant Fans to Maintain 0-20°C Controls.

COOKING

Jacket Dissolving Tank & storage Tank for Sugar and glucose and with Control Panel

OIL SPAYING SYSTEM

DEPOSITING

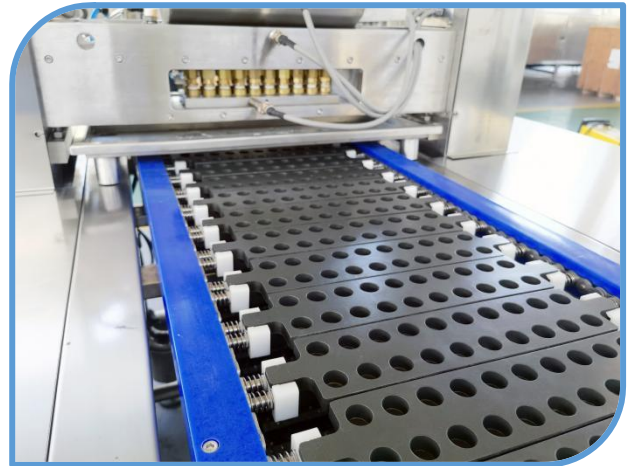

Servo Drive Controlled Dosators(20). Automatic and easy fill volume changes. Ranging from 1-15g

G150

Gummy Production Line

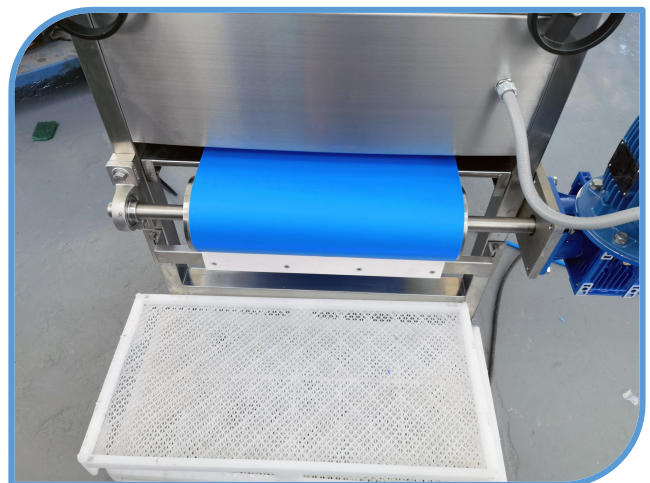

AUTO DOSING SYSTEM

QUICK RELEASE TOOLING

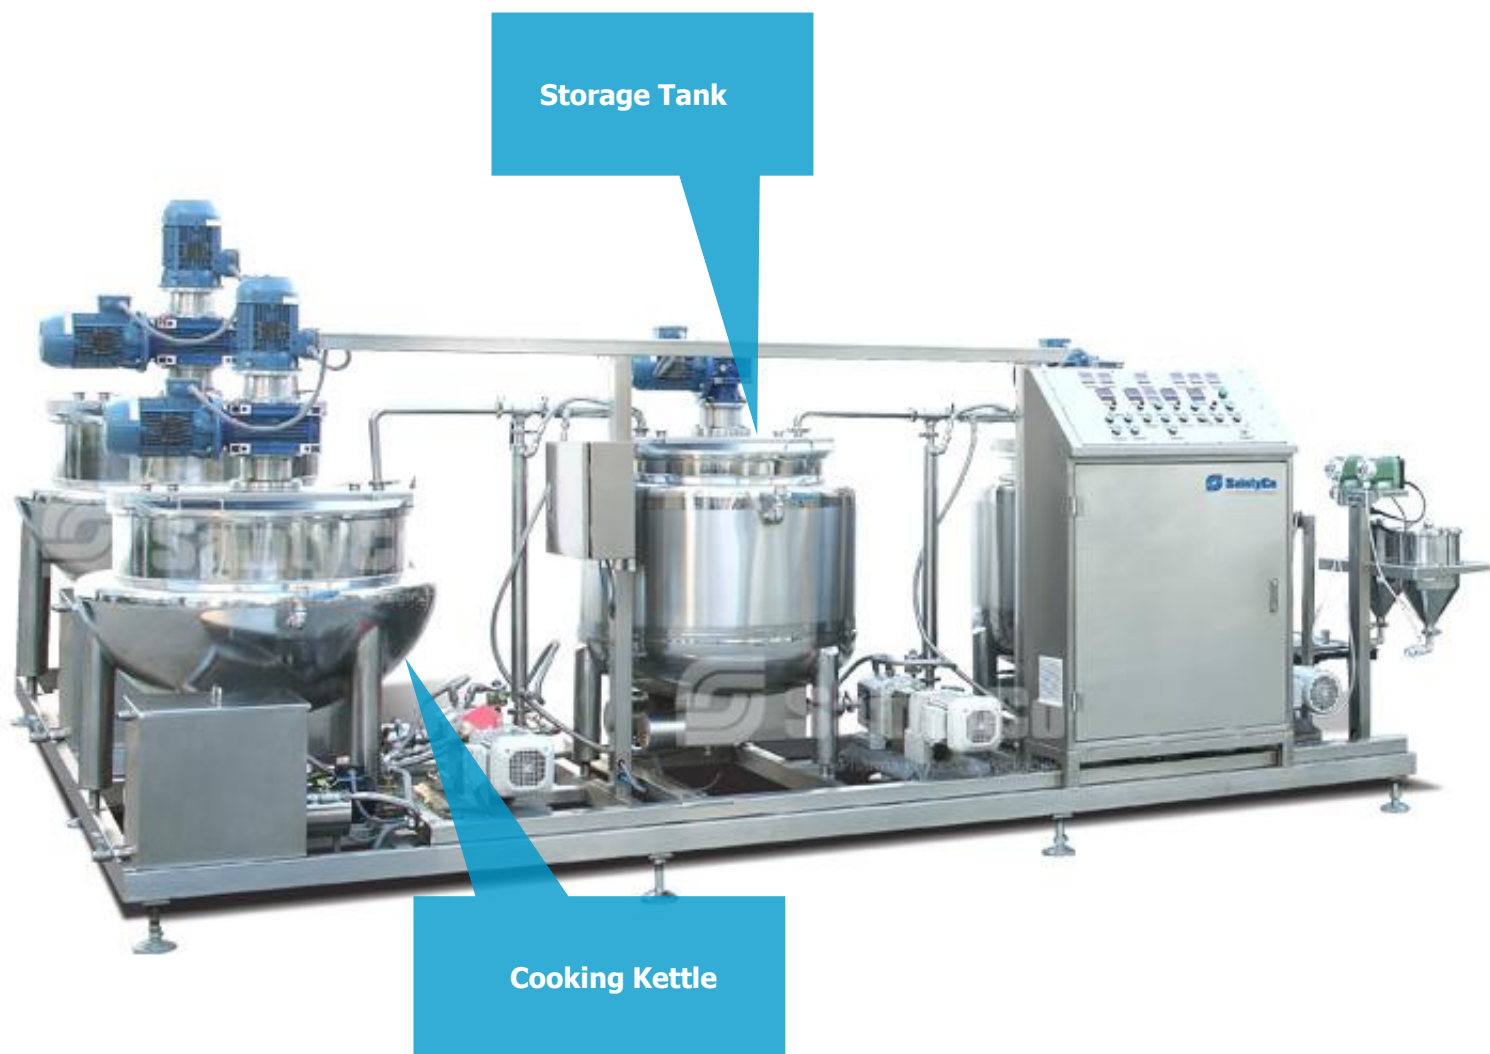

DUAL BRUSH REMOVAL SYSTEM

POLYURETHANE COOLING BELT(FOOD GRADE)

G150

G150

Gummy Production Line

Touch Screen

- Easy to Use Touch Screen Control System
- Recipe memory and management

G150

Gummy Production Line

Simple to Use Touch Screen Control System

Auto Dosing System

- Precise Dosing of Flavors or Colors
- Variable Feed Speed Peristaltic Pump
- Flavor or Color Storage Tank
- Two Systems Required for Dual Color Gummies

G150

Gummy Production Line

A detailed view of the G150 Gummy Production Line machine. The machine is constructed from stainless steel and features a hopper at the top for gummy mix. Below the hopper, there are two rows of dosators (nozzles) for precise dispensing. A blue coiled hose is connected to the dosators. The machine also includes an auto oil spraying system with a stainless steel cover and a quick release mold assembly with a stainless drive chain. The background shows a blue surface with various gummy candies.

Hopper with Servo Drive Controlled Dosators

Auto Oil Spraying System with Stainless Cover

- Sprays oil onto tooling molds to allow easy release of molded product
- Oil Tank with Level Sight Glass
- Spray Nozzles

Quick Release Molds (no tools required)

- Stainless Drive Chain with Quick Release Assemblies

G150

Gummy Production Line

Feature:

- Production capacity: up to 150kgs/h
- PLC control system
- LED touch panel for easy operating
- Special designed de-moulding device
- Different shape be made via change-over of moulds
- In-line injection, dosing & pre-mixing for proportional addition of liquid
- Dosing pump for automatic injection of colors, flavours and acids
- Available for one colour, two colours jelly candies
- Sanitary construction
- Deposited hard candies can be produced on same line by changing moulds

Technical Data	G-150
Production capacity	150kg/h
Rated depositing times	35~45n/min
Electric power needed	70kw 220/380V
Refrigerator	MT120 15,000 kcal/h
Compressed air consumption	0.30m ³ /min
Compressed air pressure	0.4-0.6 Mpa
Conditions needed for the cooling system:	
1.Room temperature	20-25℃
2.Humidity	55%
Length of the whole line	16m
Gross Weight	Approx. 8000Kg

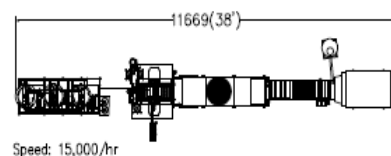

Different Models For All Your Production Demands!

G40 BATCH FOR PECTIN BASED GUMMY

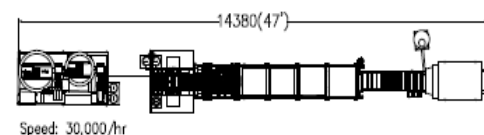

Speed: 15,000/hr

G40 SEMI-CONTINUOUS FOR PECTIN /GELATIN BASED GUMMY

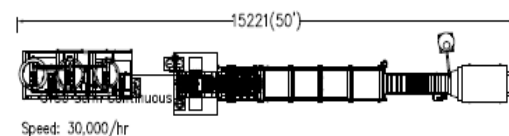

Speed: 15,000/hr

G80 BATCH FOR PECTIN BASED GUMMY

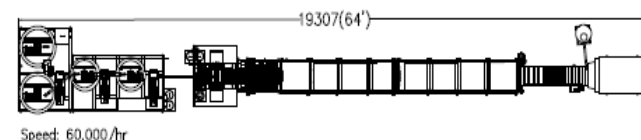

Speed: 30,000/hr

G80 SEMI-CONTINUOUS FOR PECTIN /GELATIN BASED GUMMY

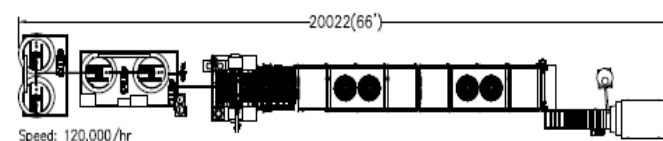

Speed: 30,000/hr

G150 SEMI-CONTINUOUS FOR PECTIN /GELATIN BASED GUMMY

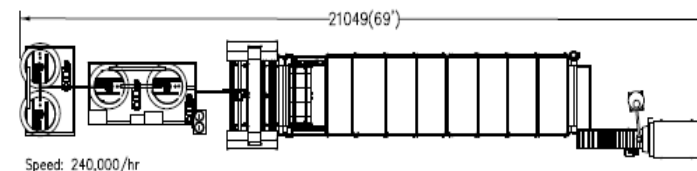

Speed: 60,000/hr

G300 SEMI-CONTINUOUS FOR PECTIN /GELATIN BASED GUMMY

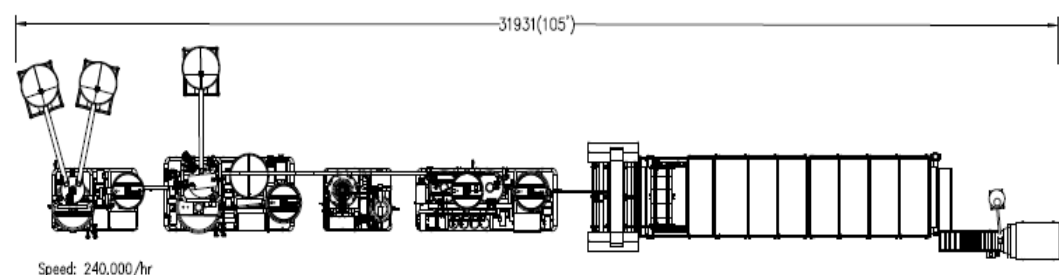

Speed: 120,000/hr

G600 SEMI-CONTINUOUS FOR PECTIN /GELATIN BASED GUMMY

Speed: 240,000/hr

G800 CONTINUOUS FOR PECTIN /GELATIN BASED GUMMY

Speed: 240,000/hr

SaintyCo Also Offer:

- Gummy Counting Bottle Packing Solution
- Automatic Weighing Bottling Production Line
- Sugar sanding drum
- Gummy Coating Pan
- Gummy Molds
- Pouch Packaging Machine
