

SPECIAL OFFER

NO-RISK, EXISTING TOOL OPTIMIZATION PACKAGE

- 1 Do you have a tri-axis transfer press that is currently at or near capacity?
- 2 Would you like to reduce overtime hours and have time for preventative maintenance?
- 3 Do you simply want to keep your equipment from being beaten by running smoother curves?

T-SIM Solutions is now offering a No-Risk, Existing Tool Optimization Package for (3) tools currently running production at your facility.

OUR COMMITMENT TO YOU

- » We take all the risk!
- » We will guarantee a ***10% Average Increase in SPM or the ENTIRE project is FREE!**
- » *Average increases are typically in excess of 15-25% on existing tool optimizations.

YOUR COMMITMENT TO US

You get the results or you don't pay!

A few hours of collaborative time per job from your team to collect the necessary information for the press and jobs.

A minimum of (3) tools to prove T-SIM's effectiveness

WHAT'S THE COST?

\$5,000
PER TOOL
PERIOD

Issue us a PO for the (3) tools, and we will only invoice after we've delivered on the increase in SPM.

The end result is you have a higher SPM and smoother curves...

GUARANTEED!
